## REPORT

The Department of Commerce (CA) and Business Administration organized an extension activity on "Road Safety Awareness" at Kodangipatty. Nearly 50 students from our college participated in this event. Our college students gave road safety awareness to wearing a helmet for two-wheelers and seat belts for those who drive four-wheelers and to follow traffic rules. Our students have been fully energetic and enthusiastic throughout this program. While people are breaking the rules, unfortunately, we are suffering accidents. Hence, road safety awareness is important.

## REPORT

In our college, the departments of mathematics and computer science jointly organized the one-day state-level workshop on August 22, 2023, on the topic of "MATLAB and its Applications in Differential Equations". The programme started with lighting the Lamp and a prayer song. Our department student, R. Selvamani, I-M.Sc.,(Mathematics), delivered the welcome address. Our college secretary, Yatiswari Neelakantapriya Amba, gave her blessings, and she spoke about the ancient mathematicians Leelavathi and Baskara. Our beloved principal gave the presidential address. The chief introduction was given by C. Praveena, III - BCA. In the first session, our chief guest, Dr. G. Nagamani, M.Sc., M.Phil., Ph.D., gave a lecture about MATLAB and when the applications are used in differential equations, as well as explaining the basic concepts of MATLAB in algebra. The second session is a practical session that was taken over by our chief guest. Our college students (150 members) and other college students (50 members) actively participate in this programme. The students learned new concepts about MATLAB. Then our department student, A. Athisaya, I-M.Sc., delivered the vote of thanks. Finally, the programme ends with the photo session and Shanti Mantra.

## CERTIFICATE OF APPRECIATION

This is to certify that **Dr.G.NAGAMANI, M.Sc., M.Phil., Ph.D.** Assistant Professor, Department of Mathematics, The Gandhigram Rural institute (Deemed to be University), Dindigul has given a lecture on the Topic "**MATLAB and its Applications in Differential Equations**" conducted by Department of Mathematics & Computer Science of our College.

The lecture was much inspiring and incited the student audience to initiate the Learning concept of MATLAB and its Applications in differential Equations.

## ROAD SAFETY AWARENESS PHOTOS

## REPORT

The Department of Commerce (CA) and Business Administration organized an extension activity on "Road Safety Awareness" at Kodangipatty. Nearly 50 students from our college participated in this event. Our college students gave road safety awareness to wearing a helmet for two-wheelers and seat belts for those who drive four-wheelers and to follow traffic rules. Our students have been fully energetic and enthusiastic throughout this program. While people are breaking the rules, unfortunately, we are suffering accidents. Hence, road safety awareness is important.

Respected Madam,

Sub: Seeking permission to conduct an extension activity on The Importance of Grammar for For Effective Speaking.

In our Department of English we have planned to conduct an extension activity on Importance of English Grammar for effective speaking at Government Middle School Kodangipatti. It will definitely be useful for our students as well as the school students. This activity helps them to improve their communication skills in English without grammar mistakes.

It helps them to rectify their grammatical errors. Our students are also very much interested in giving the lecture to the students about the Importance of Grammar in English. We have planned to conduct it on (15.03.2024) at Government Middle School Kodangipatti. It will definitely be useful for our students to develop their communication skills and grammar knowledge in english. So kindly give us permission to conduct an extension activity

DEPARTMENT OF ENGLISH  
EXTENSION ACTIVITY REPORT (2023-2024)**

In our department of English we conducted an extension activity on (15.03.2024) on Importance of English Grammar for effective speaking at Government Middle School Kodangipatti. Students gave wonderful teaching to the students.

It will definitely be useful for our students as well as the school students. This activity helps them to improve their communication skills in English without grammar mistakes.

It helps them to rectify their grammatical errors. Our students are also very much interested in giving the lecture to the students about the Importance of Grammar in English. It will definitely be useful for our students to develop their communication skills and grammar knowledge in english.

Our students had played a pivotal role in that extension activity. They gave wonderful teaching to the students. They got so much knowledge from our students through this programme. Our students asked more questions related to English grammar. Our students also got a good experience through this programme.

Our students got some knowledge and they learned how to handle the school students and how to teach them. They taught english grammar topics like Tenses, Sentence Pattern, Figures of speech and Active Voice and Passive Voice. It was definitely useful to our students as well as to the school students. They learned English grammar through this wonderful programme from our students.

### राष्ट्रीय एकता दिवस शपथ

मैं सत्यनिष्ठा से शपथ लेता हूँ कि मैं राष्ट्र की एकता, अखंडता और सुरक्षा को बनाए रखने के लिए स्वयं को समर्पित करूँगा और अपने देशवासियों के बीच यह संदेश फैलाने का भी भरसक प्रयत्न करूँगा। मैं यह शपथ अपने देश की एकता की भावना से ले रहा हूँ जिसे सरदार वल्लभभाई पटेल की दूरदर्शिता एवं कार्यों द्वारा संभव बनाया जा सका। मैं अपने देश की आंतरिक सुरक्षा सुनिश्चित करने के लिए अपना योगदान करने का भी सत्यनिष्ठा से संकल्प करता हूँ।

### RASHTRIYA EKTA DIWAS PLEDGE

I solemnly pledge that I dedicate myself to preserve the unity, integrity and security of the nation and also strive hard to spread this message among my fellow countrymen. I take this pledge in the spirit of unification of my country which was made possible by the vision and actions of Sardar Vallabhbhai Patel. I also solemnly resolve to make my own contribution to ensure internal security of my country.

### ABSTRACT

The paper titled HUMAN RESOURCE MANAGEMENT SYSTEM is basically concerned with managing the Administrator of HUMAN RESOURCE Department in a company. A Human Resource Management System, refers to the systems and processes at the intersection between human resource management and information technology. It merges HRM as a discipline and in particular its basic HR activities and processes with the information technology field, whereas the programming of data processing systems evolved into standardized routines and packages of enterprise resource planning software. The main objective of this paper is to reduce the effort of Administrator to keep the daily events such as attendance, projects, works, appointments, etc. This paper deals with the process of identifying the employees, recording their attendance hourly and calculating their effective payable hours or days. This paper should maintain the records of each and every employee and their time spend in to company, which can be used for performance appraisal. Based on that transfer, removal, promotion can be done.

**KEYWORDS:** Discipline, Standardized, Grievances, Laying off, Sustainability.

### INTRODUCTION:

Human resource management is the strategic approach to nurturing and supporting employees and ensuring a positive workplace environment. Its functions vary across different businesses and industries, but typically include recruitment, compensation and benefits, training and development, and employee relations. The term human resources was first used in the early 1900s, and then more widely in the 1960s, to describe the people who work for the organization, in aggregate. In the past, its role was quite limited. Within any company or organization, HRM is a formal way of managing people. It is a fundamental part of any organization and its management.

### OBJECTIVES OF HUMAN RESOURCE MANAGEMENT

1. **Societal objectives:** Measures put into place that responds to the ethical and social needs or challenges of the company and its employees. This includes legal issues such as equal opportunity and equal pay for equal work.
2. **Organizational objectives:** Actions taken that help to ensure the efficiency of the organization. This includes providing training, hiring the right number of employees for a given task or maintaining high employee retention rates.
3. **Functional objectives:** Guidelines used to keep HR functioning properly within the organization as a whole. This includes making sure that all of HR's resources are being allocated to their full potential.

4. **Personal objectives:** Resources used to support the personal goals of each employee includes offering the opportunity for education or career development as well as maintaining employee satisfaction.

#### **FUNCTIONS OF HRM:**

##### **Job analysis:**

Determining the skills and experience necessary to perform a job well may make it easier to hire the right people, determine appropriate compensation and create training programs.

##### **Workforce operations:**

Creating health and safety policies, responding to employee grievances, working with labor unions, etc., can help support regulatory compliance.

##### **Performance measurement:**

Evaluating performance is important because it not only fosters employee growth through constructive feedback, but also serves as a guide for raises, promotions and dismissals.

##### **Incentive programs:**

Recognizing achievements and rewarding high performers with bonuses and other perks is a proven way of motivating employees to take ownership of business objectives.

##### **Professional development:**

From orientation to advanced educational programs, employee training serves to improve productivity, reduce turnover and minimize supervisory needs.

#### **IMPORTANCE OF HUMAN RESOURCE MANAGEMENT IN ORGANIZATION:**

##### **Maximizing Productivity and Profitability:**

It really focuses on both the quality and quantity of employees, as it provides them with opportunities to grow in their respective domains. As a result of these opportunities, employees are highly motivated and meet the established goals. Hence, it allows the organization to capitalize, create a presence in the market, and enhance profitability.

##### **High Quality of Work:**

A positive work environment, employee recognition, and a sense of responsibility motivate employees to give their best, which makes sure to yield a high quality of work as it helps to achieve set goals. Also, hiring the right people and making sure to train them well is important for getting the best quality work. This is crucial, as it helps the employees learn and quickly adapt to the organization's working culture.

##### **Helping employees achieve the set goals:**

Human resource management is important in achieving the set goals, as companies provide compensation, benefits, and rewards to recognize their employees. These activities help motivate employees to give their best. It also improves employee morale and gives employees new energy to perform better.

##### **Improving Teamwork:**

HR managers need to make sure every employee feels important and worthy in every department. They emphasize the importance of HRM in teamwork and team spirit in the workplace. So, that it will make a great contributions to get the desired results. Moreover, AI tools with GPT-4 powers, like the ones featured at AI tools with GPT-4 powers, are revolutionizing the way businesses interact. Also, the automate tasks, further enhancing the teamwork.

##### **Reducing the gap between demand and supply of Human resources:**

The role of HR management in an organization extends beyond personnel management. So, to include determining the sufficiency of the pool of available human resources. HR managers organize hiring and

selection campaigns to fill any employment gaps that may exist within the company. Similar to laying off ineffective employees, human resource management is responsible for this.

#### **Building a corporate image:**

For businesses, sustainability involves preserving their storied, ideal reputation in the marketplace. Everyone wants to be associated with a business that is well-known for its ethical behavior. Also, which offers commitment to the community and its employees. Contrarily, businesses that treat their employees more like resources than as people are in danger of failing completely.

#### **HUMAN RESOURCE MANAGER (HR):**

A human resources (HR) manager is someone who oversees the administrative and organizational functions of a company or business. The manager usually heads the HR department, and they play an important role as a bridge between management and employees.

#### **RESPONSIBILITIES OF HR MANAGER:**

- Developing and implementing the HR strategies and initiatives designed for the overall business plan.
- Coordinating and supervising the work of the HR team.
- Communicating with other department heads to know about their staff and training requirements.
- Designing job descriptions and revising them periodically.
- Heading recruitment, interviews, hiring and training procedures.
- Handling the exit interviews to examine the shortcomings of both the employee and the organisation.
- Creating, maintaining, and revisiting company policies and employment laws.
- Most important, working on maintaining a positive and open work environment.

#### **SKILLS OF HR MANAGER:**

**Communication And Problem-Solving Skills-**Employees and other HR executives often reach out to HR managers, for their different functional and operational concerns. Thus, a human resource manager must have effective communication and problem-solving skills, to build an effective workplace environment.

**Leadership Skills-** The HR professional leads different teams to ensure the completion of diverse tasks and responsibilities within the organisation. Thus, they need to have excellent leadership skills. Learn more about **what leadership is** and its role in the HR Manager's career.

**Technical Skills-** The knowledge of emerging technologies and trends help the HR managers streamline the different processes for growing productivity.

**Organisational Skills-** Being a human resource manager, one must juggle a wide range of responsibilities. They assure all departments meet the decided deadlines and for an effective outcome.

**Time Management Skills-** The capability to address multiple projects at a time demands excellent time management skills.

#### **RECENT TRENDS IN HUMAN RESOURCE MANAGEMENT:**

##### **1. A hybrid structure:**

The personnel groups relocated when work-from-home became a routine, leaving all the teams and companies to disband from one particular geographical location to anywhere in the nation. Hybrid work culture is also a natural first step today for a business to expand in foreign markets too. The hybrid culture automatically opens the door for new opportunities for growth and earnings. Over the past few years, expanding through foreign markets has become easier and more affordable due to the rise in hybrid culture.

**ABSTRACT**

The Goods and Services Tax (GST), implemented on July 1, 2017, is regarded as a major taxation reform till date implemented in India since independence in 1947. GST was planned to be implemented in April 2010, but was postponed due to political issues and conflicting interest of stakeholders. The primary objective behind development of GST is to subsume all sorts of indirect taxes in India like Central Excise Tax, VAT/Sales Tax, Service tax, etc. and implement one taxation system in India. The GST based taxation system brings more transparency in taxation system and increases GDP rate from 1% to 2% and reduces tax theft and corruption in country. The paper highlighted the background of the taxation system, the GST concept along with significant working, comparison of Indian GST taxation system rates with other world economies, and also presented in-depth coverage regarding advantages to various sectors of the Indian economy after lavishing GST and outlined some challenges of GST implementation.

**KEY WORDS :** Goods and Services Tax, GDP, Tax structure, Tariffs, Economic reforms.,

**INTRODUCTION:**

GST is a tax structure which is effectively settled in numerous nations all around the world and presently it is a piece of Indian Economy. It was presented around a decade prior yet got deferred because of governmental issues between administering party and opposition. At last, GST became effective at 12 PM on 1 July 2017 by the president of India through the execution of constitutional amendment. It is considered as the greatest taxation change in Indian Economy. India is presently the fifth biggest economy on the planet according to IMF & is viewed as one of the world's quickest developing economies.

A value added tax that will replace all other indirect taxes is GST. GST will boost the GDP gradually. It will also enhance the level of India in both domestic and international market. It is one of the biggest economic reforms in India and can be said as a single tax which is imposed on the supply of various goods and services. It is a comprehensive, multistage destination-based tax.

#### **GST IN INDIAN ECONOMY:**

GST stands for Goods and Services tax. Before the execution of GST, there were numerous indirect taxes which the organizations and businesses needed to pay. After the implementation of GST which is one of the greatest and huge financial change. Fundamentally, the point is to give a rearranged and a tax structure which is imposed on the financial exercises and will help in expanding the productivity of the organizations. It is a comprehensive nature tax which is levied on manufacturing, selling and consuming goods and services. GST has supplanted practically every one of the roundabout taxes aside from some which states and central levy taxes. Very nearly, 160 nations across the globe have executed GST instead of indirect taxes.

GST is collected by the state, where the goods and services are consumed. This states that it is a destination-based tax. India has implanted a dual GST model i.e. both the states and central will levy taxes on goods and services. GST was finally implemented with effect from 1st July 2017. SGST is the GST collected by state.

The central GST which is collected by the Centre is called CGST. The tax applicable on interstate and import transactions is called IGST which is again collected by Centre and the tax applicable on transactions within the union territories without legislature like Daman & Diu, Chandigarh, Lakshadweep islands is called UTGST, collected by the Union territory.

#### **NEED FOR GST IN INDIA:**

The introduction of GST is one of the significant stages of economic reform in the country. GST is essentially summation of different state and local taxes into a one single tax. GST helps in decrease of twofold taxation, falling impact, issue of arranging and clearing taxes, variety of taxes and so on. GST made a more extensive tax base, rationalization of tax construction and harmonization of state and Center organization.

Before GST there were different VAT rates across the country which differs from state to state but with the introduction of GST, there is a uniform tax system across the country and the taxes are divided between the state and the central government. GST will help in reduction of tax theft and corruption in our economy.

Goods and Services tax influences each individual and business. There is some ups and downs in business areas before all else, in light of the fact that it won't show impact in instantly. Authors have concentrated on the significance of VAT in the Indian Economy and its impact on the general public. Authors have also referenced that as per specialists GST is probably going to improve the arrangement of tax collection and will support the financial advancement of India.

GST will almost eliminate cascading impact on the creation and circulation cost of goods and services. This reduced cost of goods and service leading to accelerated GDP growths without tax barriers will leads to economies of scale in manufacturing industry and reduces the supply chain cost.

GST is supposed to diminish the production cost by 15% to 20% in a large number of the items considering full info tax credit which will well affect the costs of item. GST will remove the tax distortions from the economy. A simplified tax system will attract more manufacturing investment for growth. Multiple taxes that currently exist will no longer be roadblock. This will reduce the compliances to be fulfilled as compared to present situation.

### **GST TAX SLAB:**

The study about GST provided more statistical information. It was found that there are about five slabs for the collection GST -0%, 5%, 12%, 18%, 28%. But some products like electricity, alcohol and petroleum goods are not included in GST. It can be taxed by the state government individually according to the old tax structure.

There is a 4-level tax sections as per which the tax rate is forced on different items and services. After the execution of GST, there is an adjustment of the tax structure. The taxes are forced on items, contrast as indicated by their need in everyday.

### **ZERO TAX:**

Some items enjoy zero tax rate on various goods, which are Barley, wheat, oats, kaja (other than kaja pencil stick), sanitary napkins, music books, coloring books and drawing books for children, all types of salt and human hair, hotel and lodge bill under Rs. 1000, bank charges on saving account and Jan Dhan Yojana.

### **5% Tax Rate:**

Some goods which are taxed under 5% slab are cashew nuts, aggarbati, kites, postage stamps, bio gas, insulin, matting, walking sticks, Pawan chakki atta, Braille typewriter, Braille paper, braille watches and other hearing aids, takeaway food restaurants, hotel with room tariffs less than Rs. 7500 and special flights for pilgrims.

### **12% Tax Rate:**

Some goods which are taxed under 12% slab are plastic beads, ketchups, sauces and mustard sauces, all kinds of diagnostic kits and reagents, notebooks and copies, spoons & forks, fish knives, fixed speed diesel engines, cake knives, skimmers, playing cards, carrom board and other board games, two-way radio used by military and police forces, corrective spectacles, Business class air tickets and movie tickets under Rs. 100.

### **18% Tax Rate:**

Some goods which are taxed under 18% slab are kaja pencil sticks, plastic tarpaulin, toilet cases, dental wax, school bags other than leather bags or leather composition, aluminum foil, rear tractor tyres or tyre tubes, printers other than multifunction printers, weighing machine other than electronic weighing machine, electrical transformer, static converters, CCTV, baby carriages, televisions and monitors (up to 32 inches), ball bearings and roller bearings, set up box for TV, electrical filaments, power banks of lithium-ion batteries and bamboo furniture, Movie tickets above Rs. 100, branded garments, telecom and financial services and restaurants inside hotels with bill of Rs. 7500 or above.

### **28% TAX RATE:**

Goods which are taxed under this slab are pan masala, dishwasher, weighing machine, paint, cement, hair clippers, motorcycles, sunscreen, betting on casinos and racing, hotel stay bill above Rs. 7500, and automobiles.

### **EFFECT OF GST ON GROWTH OF ECONOMY:**

Mainly three components of society are affected by the change in tax rates of goods and service, namely: Consumer, Producer and Country. To explain the effect of this shift in tax here are some examples explained below.

The effect on restaurant industry which has shifted its tax rate from 18% to 5%. Tax distribution of restaurant charges after GST shows that the tax charged from the consumers has decreased as compared to pre-GST tax scheme. Prior all the restaurants used to charge 18% but now the tax charged on all restaurants is 5%.

### **CONCLUSION:**

The implementation of GST has given a positive notion in 150 countries across the world and it will

give a positive impact on the Indian service sector. It will increase the GDP undoubtedly but it will take some years to show the effect because economic growth may not jump immediately, but its beneficial for the economy of the country. So, we can conclude by stating that the execution of GST will give relief to the producers and consumers by giving them input tax credit setoff. Good and services tax likely bring balance to government empowerment. The malicious activity of not paying the tax will go away under this regime so that both Government, as well as consumers, can take profit. This helps the Indian economy to become stronger and more stable. With the reduction in tax rates on various goods and services, the cost of various goods and services has been reduced. Thus, making the products affordable, and this has led to an increase in demand, which in turn would increase in production and hence will make the economy grow faster. Also, by placing the demerit goods in the highest tax slab, 28% GST council has focused on discouraging the consumption of such sin goods so as to make India a better place to live.

### ABSTRACT

Banking is the backbone of every industry and technology plays an important role in every industry. The role of technology is increasing very rapidly day by day, which is also promoting the banking industry. Banking is one of the largest financial institutions which regularly explore the opportunity of technology to provide better customer services. Over the years, banking has transcended from a traditional brick-and mortar model of customers queuing for services in the banks to modern day banking where banks can be reached at any point for their services. In today's business, technology has been the largest indicators of growth and competitiveness. The banking industry today is in the industry of its revolution. Information technology has basically been used under two different avenues in banking. One is communication and connectivity and other is business process. Today, banks have welcomed wireless and mobile technology into their boardroom to offer their customers the freedom to pay bills, planning payments while stuck in traffic jams, to receive updates on the various marketing efforts while present at a party to provide more personal and intimate relationships. This paper examines consumer adoption of a new electronic payment service as mobile banking and the positive and negative factors influencing the adoption of mobile banking in India.

**KEYWORDS:** Mobile banking, Internet Banking, Technology Adoption, Mobile Payments.

### INTRODUCTION

Mobile banking is a quite popular banking system in the world. Many banks are started to provide the mobile banking services. It is a financial transaction conducted by logging on to the bank's website by using a hand phone or cell phone. There are a lot of services that offer by mobile banking such as mini-statement and checking of account history, access to loan statement and card statement, status on cheque, stop payment on cheque, ordering cheque books, bill payment processing and so on. It is an electronic banking that uses mobile phone technology or other wireless devices to deliver electronic financial services to customers. Mobile banking services form an important innovation in the banking sector and it has the potential in the market. It is because mobile banking brings lots of benefits to customers compared to traditional banking.

Mobile banking is fast, convenient and time-effective. It also provide 24 hour service availability, location free access and service access speed represent concrete attributes of electronic channels whereas concepts like time savings and easiness-to-use represent more the benefits or consequences deriving from the use situation.

### CUSTOMER SATISFACTION

Satisfaction is the customer's fulfillment response. It is a judgment that a product or a service feature, or the product or service itself, provides a pleasurable level of consumption - related, fulfillment. In minimal technical terms, this definition can be translated to mean that satisfaction is the customers

evaluation of a product or service in It is also important to recognize that, to measure the customer satisfaction at a particular point of time as if it were static, satisfaction is a dynamic, moving target that may evolve over the time, influenced by a variety of factors. Particularly when product usage or the service experience takes place over the time, satisfaction may be highly variable depending on which point the usage or experience cycle is focused on.

#### **STATEMENT OF THE PROBLEM**

This research explores and examines the important elements that will affect the customers to use the mobile banking. It is because bankers should understand the needs of the customers so that they can improve the inadequate and insufficient of the services. This also can increase the customers' usage intention of mobile banking services. By using mobile banking, some of the problem might occur. Some customers will think that mobile banking is difficult to utilize and it's complicated. Mobile banking services might make the customers difficult to use because it is a new technology service. Some customers also will think that the mobile banking is not secure and they will meet risk. They will worry that hacker will forgery their information and takes out their money without notify the customers. They will also doubt that their money is still in their account or not

#### **OBJECTIVES OF THE STUDY**

1. To analyses customer satisfaction level by using mobile banking services.
2. To identify the facilities provided by Mobile Banking Services.
3. To study the benefits of Mobile banking Services.

#### **SCOPE OF THE STUDY**

The study area is restricted to only Karur town. The user can be attracted towards the mobile banking because of the facility like ease to use, usefulness and convenience to the users. The response does not fully reflect the mind-set of the user towards the mobile banking, as they may feel shy in answering the question asked directly.

#### **LIMITATION OF THE STUDY**

1. This study is confined to pros and cons of the Mobile Banking services.
2. This study is limited to areas of Karur town only.

#### **REVIEW OF LITERATURE**

**Avinandan M., Prithwiraj N., (2003)**"A model of trust in online relationship banking" observed that shared value is most critical to developing trust as well as relationship commitment. Communication has a moderate influence on trust, while opportunistic behaviour has significant negative effect. Also finds higher perceived trust to enhance significantly customer's commitment in online banking transaction. An important contribution concerns how trust is developed and sustained over different levels of customer relationship in online banking.

**Suoranta M., Mattila M. (2004)**, "Mobile banking and consumer behaviour: New insights into the diffusion pattern" concluded that an indication of the characteristics of potential subsequent adopters of mobile banking and of differences between user segments and also the authors are able to comment on the influence of certain demographic characteristics and the preferred communication mode of customers on the adoption and future usage of mobile banking services.

**Sylvie L., Xiaoyan L., (2005)**"Consumers attitudes towards online and mobile banking in China", the results showed the issue of security was found to be the most important factor that motivated Chinese consumer adoption of online banking. Main barriers to online banking were the perception of risks, computer and technological skills and Chinese traditional cash-carry banking culture. The barriers to mobile banking adoption were lack of awareness and understanding of the benefits provided by mobile banking.

**Traynor P., Amrutkar C., Rao V., Jaeger T., McDaniel P., Porta T.L. (2011)**, "From mobile phones to responsible devices" highlighted that Mobile phones have evolved from simple voice terminals into highly-capable, general-purpose computing platforms. Through such vectors, mobile phones introduce a variety of new threats to their own applications and the telecommunications infrastructure itself.

**Yang A. S., (2009)**, "Exploring adoption difficulties in mobile banking services" showed that factors associated with adopting and resisting mobile banking technologies were investigated among university students in Taiwan. Adoption factors included the belief that mobile banking helps fulfill personal banking needs, provides location-free conveniences, and is cost effective. The primary factors associated with resistance included concerns over system configuration security and basic fees for mobile banking web connections.

**Chnadra Abha and Sharma. V. (2010)**. The results of this study showed that banks have posted least number of privacy policies. The interactive sites collected more personal information than sites that were not interactive. The analysis shows that new private banks and foreign banks have posted maximum number of privacy policies (63%) on their websites.

**Dar Nouman Anwar (2011)**. Electronic distribution channels provide alternatives for faster delivery of Banking services to a wider scope of customers. But despite all the opportunities and benefits created by the m-Banking, there are still many challenges that are present in the financial sector. There are also some limitations of M-BANKING as it requires awareness, knowledge and skills to operate it.

**Dixit and Datta (2010)**. An empirical study by Dixit and Datta stated that many factors like security & privacy, trust, innovativeness, familiarity, awareness level increase the acceptance of M-BANKING services among Indian customers. The result also showed that in spite of their security and privacy concern, adult customers are willing to adopt online Banking if banks provide them necessary guidance.

**Dr. ParulDeshwal (2015)** in his article entitled, "A Study of Mobile Banking in India" explains that the mobile banking concept in India. This article examines that the consumer adoption of a new electronic payment service as mobile banking and the positive and negative factors influencing the adoption of mobile banking in India. It reveals that the origin history of mobile banking in India. This study is based on exploratory research. This research is both quantitative and qualitative. The data have been grouped into two main categories - primary and secondary data. This study analyse that the basic concept of Mobile Banking, Challenges comes in front of users while adopting Mobile Banking, the positive and negative factors of Mobile Banking and the various purpose of using Mobile Banking. Perceived cost is also an important factor; therefore, this study suggests that the creative promotional and pricing strategies, including cost reduction should be implemented to attract more priceconscious customers. It is also found that customers will adopt mobile banking if they find it easy to use and understand.

**RahmathSafeena, Hema Date, Abdullah Kammani, and NisarHundewale (2012)** in their article entitled, "Technology Adoption and Indian Consumers: Study on Mobile Banking" elucidates that the technology adoption in mobile banking services based on the opinion of Indian consumers. This study determines the consumer's perspective on mobile banking adoption. This study considers the four factors perceived usefulness, perceived ease of use, consumer awareness about mobile banking and perceived risks associated with mobile banking. This study aims at examining the impact of perceived usefulness, perceived ease of use, consumer awareness on mobile banking and perceived risk on the acceptance of mobile banking by the consumers. The key intention of this paper is to evaluate those

factors that manipulate the nature of customers towards mobile banking and their growing tendency towards the online financial institutions. A survey instrument in the form of questionnaire was developed through data collected from previous studies on acceptance of mobile banking. Likert scale is used in order to identify the respondents' perceptions towards mobile banking adoption. This study concludes that bank customers are likely to adopt mobile banking when it is easy to use.

**Renju Chandran (2014)** in his article entitled, "Pros and Cons of Mobile Banking" analysed the benefits and problems of mobile banking. This is a conceptual paper which is based on secondary data. This study analyses that the pros, cons and future of benefits in India. The study is mainly descriptive in nature. Secondary data are used for the purpose of the study. The recent trend of mobile banking statistical report is to be analysed in this study with the source of RBI website. This study concludes that the banking apps can make bill paying and bank account management incredibly convenient, but the risk of identity theft is a major downside. Fortunately, it's easy to avoid most of the pitfalls with commonsense solutions like strong password protection and secure connections. By keeping these security tips in mind consumers can enjoy a safer mobile banking experience.

#### **DEFINITION OF M-BANKING:-**

M- Banking can be defined as a channel whereby the customer interacts with a bank via a mobile device, such as a mobile phone or personal digital assistant (PDA). The emphasis is on data communication, and in its strictest form m-banking does not include telephone banking, either in its traditional form of voice dial-up, or through the form of dial-up to a service based on touch tone phones.

#### **MOBILE BANKING**

In the simplest form, mobile banking services enable users to receive information on their account balances via SMS. Some new software were updated in mobile phones in order to make transfer funds between accounts, stock trading, and confirmation of direct payments through the mobile phone's micro browser. Mobile financial services in these smart phones have been introduced by quite a few European banks and were made successful. Banks are one of the key players that want to preserve their position in the financial market as the provider of banking services and central payment. Banks help customer's to go on with transactions through mobile phone with the help of technologies like WAP, SMS etc. This made banks to merge internet and telephone and leverage it to cut costs and at the same time provide convenient to its customers. Mobile devices such as mobile phones, PDAs, wireless tablets and any devices connected to mobile telecommunication network make it possible for payments to be made. The positive reception of mobile payments will make possible new and unforeseen ways of convenience and commerce. Mobile payments can become a complement to cash, cheques, credit cards and debit cards. Account based payment instruments such as electronic funds transfer, Internet banking payments, direct debit and electronic bill payments can be paid using this service and it also includes payment of bills especially utilities and insurance premiums.

#### **MOBILE BANKING CONCEPT:**

Mobile Banking is a technique of providing facilities to a consumer to carry out banking transactions on the mobile phone through a data service-provider. Banks need to provide services to their customers whenever they require it and wherever they are. We can rather call this facility as "Anywhere and any moment banking", but it is confined to only information about an individual's account and not the cash services. Mobile banking functions through short messages. Customers have to, therefore, setup Short Message Service (SMS). They are required to activate Mobile Messaging Service (MMS) in their respective mobile phones. Mobile banking is one of the major significant passage through which the customers can be relocated from front office functions to indirect passage, in order to save their precious time as also that of the executives operating in the bank. The time saved can be effectively and efficiently utilized for business development and cost reduction. Cellular phones have achieved so much

**ABSTRACT**

Over the course of starting and operating a small business, you will need to create and present detailed reports to inform stakeholders about your business. While these stakeholders vary in that they may include investors, creditors, suppliers and even customers, they all tend to have extremely busy schedules. Writing a concise yet complete business abstract becomes extremely important, because stakeholders may never read your full report. A great abstract not only motivates readers to explore the full document, it provides them with sufficient information should they elect not to.

A common mistake in writing a business abstract is attempting to write an abstract before completing the report. Before you can write a summary, however, you must complete the work you are summarizing, whether it's a business plan, marketing plan or financial report.

### **BUSINESS IN ABROAD**

Many popular expat destinations offer lower taxes and lower costs of living compared to places like the United States. This means your money can go a lot farther if you start your business overseas. Moving to a foreign country can be an exciting opportunity, but the chance to start your own business once you're there makes it even better for entrepreneurs.

Keep in mind, not all countries offer the same opportunities and benefits. Before you make your move, do your research so you know what to expect. To get started, keep reading to learn the 5 main things you need to do to start a company as an expat.

### **FARMING AND VITICULTURE:**

If you're an expat in the Mediterranean region, farming could be a great option. The warm weather and the richness of the soil make the region exceptionally good for growing fruit, veggies or – our favourite – grapes. Wine lovers might want to get into viticulture. You could buy vineyards in France or Italy, cultivate olive trees in Spain and Greece, or dabble in citrus fruit in Cyprus.

### **REMOTE WORK:**

Working remotely online gets more popular every year. It's flexible, you can do it anywhere, and it doesn't require much startup capital – just a laptop. Ten years ago, it was all about blogging. Lots of people made money travelling the world and writing about it online. Nowadays, with social media, there are even more ways to make money. You just need to build your personal brand and nurture your inner influencer.

You could also retrain for a different kind of online work. Web development is increasingly popular. You could work as a consultant in your area of expertise. If you've got good language skills, you might want to be an online translator. The possibilities are limitless. The most important thing is to find work that you're passionate about. The information in this article is correct at the time of publishing (September 2019). It could change depending on the outcome of Brexit.

### **Cryptocurrency**

If you're an entrepreneur, or would like to become one, it's important to always be on the lookout for the next big thing. Lately, that thing has been cryptocurrency, the digital currencies that use cryptography and the blockchain to secure transactions and create new units. As of early 2022 the global cryptocurrency market is worth about \$1.8 billion. By 2028 it's expected to be worth more than \$32 billion, which means it's set for incredible annual expansion of nearly 60%.

Despite a few recent hiccups, cryptocurrency may still be the world's fastest-growing industry, and you can get in on the action with your own crypto business. Assuming you're not going to create your own cryptocurrency, which requires programming expertise, you'll need to decide whether you want to start a wallet, which is an application that helps users store and spend cryptocurrencies, or an exchange, which enables cryptocurrency trade. Another option is to become a cryptocurrency investor and broker, which will require considerable expertise regarding the fast-evolving field of cryptocurrency. If you do find a niche, this is an industry that could deliver massive returns.

### **Freight Forwarding Business:**

With many countries opening up their economies, international trade volumes are increasing again and driving growth in the freight forwarding market. In the US, freight forwarding brokerages and agencies are expected to earn more than \$150 billion in 2022. They comprise the second largest segment in the transportation industry. There's still room for new players, especially those who can offer innovative

products and services. If you're thinking of starting your own freight forwarding business, now is the time to do so.

Freight forwarding may seem like a complex business to start, but it can be a breeze with the right tools. A wise move before you launch your business is to choose the services that you will offer, whether it's customs clearance or transportation services. The permit and license requirements will depend on your choice. You also need to be knowledgeable about the legal issues. Find a good location for your facilities, but go digital to promote your business and coordinate with your clients. If you do this right, you will soon be raking in profits!

#### Online Gambling:

Make sure you do business in any of the six states that have legalized online casinos – New Jersey, Pennsylvania, Michigan, Delaware, West Virginia and Nevada. At least seven other states have introduced laws, hoping to do the same. The online gambling market was valued at more than \$2 billion in 2020 and is projected to grow 17% annually the next five years as bettors continue to migrate from offline to online gambling.

So if you're ready to take the plunge into the world of online gambling, start by choosing the software provider. There are several in the market, so you have to research each provider's pros and cons. Once you've made that choice, select your gambling content and apply for a license. You also need to establish safe and sure payment processes. Finally, develop your website and promote your business through social media and other platforms.

#### CONCLUSION:

In order to be successful in any endeavor in life in today's society, planning ahead is key. Likewise in business, strategy is key in order for survival especially when entering a market that is new and foreign, such as that of India. India is an especially fertile place for the international market due to globalization and similar factors that has modernized the country very thoroughly within the class one to two decades, though it also has a strong and vibrant history of economic trade and of commerce. Many other corporations have already entered India's market such as Sony and Nokia. Food markets have also penetrated their way into the Indian market. Good examples of recently established and new markets that are particularly food focused in India include McDonalds, Taco Bell, and Dunkin' Donuts. These brands of successfully infiltrated the Indian market and consumer base. Therefore: a food and food services corporation which is planning to start its business in India today must look past what has already been done by established food corporations such as McDonalds, Taco Bell, and Dunkin' Donuts and look at current trends such as the country's progressive and forward movement towards modernity and the concern of the local population of health food conscious consumers who are worried about diet based diseases such as heart disease and diabetes which can cause death if left untreated. Therefore: a thorough plan of entry would consider these particular traits and global trends.

**ABSTRACT**

Human Resource is a very important input in the production matrix.. Other seven inputs include materials, money, time, energy, knowledge, information and infrastructure. These inputs are transformed by the process to get the output with feedback and control. It is also an input of the Leontief's model. In this model, there are three elements, namely; inputs, transform and output, all of which need human resource to galvanize them to be productive. Management involves the design and provision of an environment within groups and organizations so that the individuals and the groups and organizations can achieve their objectives by utilizing both human and material resources. Human resource management is one of the functional areas of management. The others are finance, marketing, production, research and development and innovation. Human resource management consists of personnel management, industrial relations management and employee welfare management. So the early founders of production management are also the founders of human resource management such as Rountria, Robert Owen, and Henry Fayol. Today, most organizations prefer to use the term human resource management to designate such functions as recruitment, section, placement, induction, orientation, training and development, wage administration and motivation. Today, human resource management has become very important as a tool for organizational success. For an organization to succeed, it has to first of all breakeven, when total revenue equals total cost and even to have units produce beyond breakeven point as well as survive and still perform well. To perform well, it has to achieve its objectives and goals. It has to satisfy the demands of stakeholders and staff and the regulatory authorities. It is against this background that this study undertakes a theoretical review of human resource management as a tool for organizational success.

**INTRODUCTION**

A major contributory area to organizational success is the management of workers in organizations. Business success in a market economy is dependent on the optimal utilization of relevant resources such as the financial resources, material resources, and human resources. It is through the combination of these resources that the attainment of the goal is achieved. However the most significant and complex

component for the attainment of organizational success is the human resource.

The concept of human resource, according to Udo-Udoaka (1992: 45), refers to the managerial, scientific, engineering, technical, craft and other skills which are developed and employed in creating, designing and developing organization and in managing and operating productive and service enterprise and the economic institution. Human resource is composed of individual working for an organization, employed these days as temporary staff or contracted staff but collectively making up the most important of organizational resources. Therefore, an organization must have the right number and types of employees who must be managed in such a way that they will be able to achieve their personal and organizational objectives.

#### REVIEW OF LITERATURE

Human resource management (HRM) involves practices that ensure that employees' collective knowledge, skills, and abilities contribute to business outcomes (Huselid, Jackson, & Schuler, 1997). The traditional conceptualization of HRM focused on managing, measuring, and controlling organization's workforces. Tactical (Whitner, 1997) or technical (Huselid, et al., 1997). HRM includes selection testing, training, performance measurement and administration of benefits (Whitener, 1997). Huselid, et al (1997) have identified empirically a second dimension of HRM activities: strategic HRM, which involves employee participation and empowerment, communication, team based work design, and development of managers of the organization. Arthur (1994) identified two types of human resource systems similar to those found by Huselid et al (1997): Commitment and control. The human resource system that is based on commitment is focusing on the psychological links between organizational and employee goals. It is associated with higher involvement in managerial decision, participation, providing training and rewards. A human resource system that is based on control focuses on directly monitoring and rewarding employee behavior or the specific outcomes of that behavior (Arthur, 1994).

The theoretical literature suggests that HRM practices increase productivity by increasing employees' skills and motivation. Moreover, HRM practices contribute to business objectives through strategic innovation or technical competence. Recent empirical studies on larger companies supported the basic assumptions of HRM theory (Arthur, 1994; Huselid, 1995; Huselid et al., 1997). Does this theory apply to small-scale enterprises as well? HRM also carries costs and they might neutralize the positive effects of HRM in small-scale enterprises. HRM is an investment, and thus, it costs time and/or money. The current performance of employees may even be decreasing because of the time spent on training. Moreover, HRM can only have effects when employees stay in the company for a certain period of time. Otherwise, the company suffers a loss because of the investments in HRM. Thus, the benefits of HRM must exceed costs invested in HRM. Since small-scale enterprises have limited financial resources it is very well possible that large investments in HRM do not pay off. This paper, therefore, reviews human resource management as a tool for organizational success. It is divided into six sections. Section one is the introduction. Section two examines the perspectives of human resource management and the human resource function with section three looking at the importance of personnel and human resource management. Section four x-rays current challenges, issues and trends associated with HRM. Section five shows some results of human resource management contributions in business success while section six contains our conclusion.

#### PERSPECTIVES OF HUMAN RESOURCE MANAGEMENT AND THE HUMAN RESOURCE MANAGEMENT FUNCTION

There are numerous definitions of the term human resource management as there are many experts in the field and it is called by different names for example, in certain public enterprises it may be called personnel administration, employee relations or manpower. Human resource management is concerned

with the proper use of human factors in business. Byers and Rue (2000 :75) are of the opinion that human resource management is that part of management that is designed to provide for and coordinate the employees in the organization. Plants, equipment and all others that a modern firm uses are unproductive except for the effort and direction by human resource.

According to (Cole, 2002: 44) human resource management is that part of management which is concerned with people at work and with their relationship within an enterprises and it seeks to achieve both efficiency and justice.

Human resource management has to do with various operative functions of recruiting, maintaining and utilizing a labour force in such a way that objectives for which the company was established are attained economically and effectively. In sum, human resource management can simply be defined as an effective and efficient utilization of human element at work.

#### Human Resource Management Function

The personnel/human resource department programme of each organization is unique and personnel activities will vary some what from firm to firm yet trends clearly indicate that the scope personal responsibilities in increasing in organizations of all sizes. Personnel/Human resource management functions can be described as follows;

- Job analysis and design
- Recruitment and selection
- Appraisal Training and Development
- Compensation and wealth
- Employee relations

The human resources manager, staff and line Managers

Managing human resources effectively is the task of individuals who have specialized in it and are primarily responsible for human resource management. Human resource managers comprise staff and line managers(those in charge of the employees who are producing the products and delivering the services of the company). These two sets of managers are interdependent in the management of human resources. Increasingly, they work together. Thus, chief executive officers (C.E.O), human resource managers, and all levels of senior management will be involved in managing human resources.

Amidst other senior executives, the human resource leader will be indistinguishable from others, in concern for and understanding of the needs of the business, likewise the staff of the human resource department will appear indistinguishable from their counterparts in the firm, sharing in the human resource function, line managers, human resource staff, and non managerial employees together will forge and implement human resource activities, structure, roles, policy, goals and practices.

The Employees:- Employees are also taking a role of human resource management. For example, employees may be asked to appraise their own performance or that of their colleagues. It is no longer common for employees to write their own job description. Perhaps most significantly, employees are taking a more active role in managing their own careers, assessing their own needs and values, and designing their own jobs. Nevertheless, the human resource department must help guide this process to these ends, but must be staffed with qualified individuals.

## IMPORTANCE OF PERSONNEL AND HUMAN RESOURCE MANAGEMENT

Now, more than ever before, human resource management is recognised as being critical to the survival and success of organisations. In 1991, IBM and the internationally recognised consulting firm of towers Perrin jointly conducted a worldwide study of nearly three thousand senior personnel and human resource management leaders and chief executive officers. Results indicate that about seventy percent of human resource managers see the human resource function as critical to the success of organisations. By the year 2000, more than ninety percent expect the human resource department to be active while the human resource respondents here perhaps a bit more positive about this trend. The Chief executive officers were very close behind. While serving the very success of the business can certainly be regarded as an important goal of personnel and human resource management.

## EXTERNAL INFLUENCE ON HUMAN RESOURCE MANAGEMENT:

## CURRENT CHALLENGES, ISSUES AND TREND

To a large extent, the personnel department's newfound yet well deserved prestige is the result of the enormous responsibilities undertaken by personnel managers. Today, many problems and issues that have traditionally been the responsibility of the personnel department remain so. Examples are the recruitment, selection, orientation and training of high quality personnel, job analysis and job evaluation, labour relations and employee appraisal systems. Current problems and issues have created a new era of professionalism in personnel management. Some of these problems and issues are productive improvements, the quality of working life, safety and health, equal employment opportunity and the increase in computer usage

## CONCLUSION

The issue of human resource management as a tool for achievement of goals and objectives of any organisation cannot be over-emphasized. It is imperative, therefore, that for human resource managers to fully achieve the goals and objectives of any organisation, both the organisation and the employees must come to terms with regard to what would be beneficial to both. Since an organisation does not exist in vacuum, it has to employ personnel to achieve its set objectives and this is what human resources management is all about. Management involves working with and through people to

accomplish organisational goals and objectives. The head of management is concerned with systematic co-ordination of affairs. It is aimed at utilizing available resources to attain the goals and objectives of the organisation. of all resources available to the organisation, human resources enjoy primacy of position because without it, all other resources will remain idle. From this research study, it can be deduced that human resource department must be seen as a pivotal unit in facilitating competitive advantage. It is imperative that the human resource department serves as a communication link between the stakeholders, management and employees in a business organisation. It should be managed by well trained human resource managers.

For the smooth functioning of a city, voting is a fundamental right that every individual  
should exercise, irrespective of age, knowledge, or experience. From healthcare to food,  
From educational policies to jobs, from highways to taxes, elected representatives take  
crucial decisions on these vital issues that affect our lives. Hence, voting becomes  
instrumental in the development of a nation.

### 11. Outcome of the Program

Why should you vote? To make a change. To get access to education, better healthcare and childcare, fair tax policies, basic income, better roads and transport facilities, and other basic amenities. You should vote gives you the power to choose the most suitable candidate who can run the country. If you vote, you can decide who represents your city and country. If you vote, you become an essential part of the decision-making process that will surely affect your everyday life. When you vote, you get a significant way to express your opinion on the issues you are concerned about.

## Report

In our PG Department of Mathematics, we conducted an extension activity on March 1, 2024, on voter awareness at Paganatham.

Students gave wonderful awareness to the people. They felt very proud to raise awareness among the people. Our students gave pamphlets to the people to raise awareness. We have conducted more programs by our students, like dance, singing, and enacting drama, to raise voter awareness among the people.

This program provides information about voting and how to be a responsible voter. A lot of People want to vote, but many are not aware of its need or how to cast it. This idea of voting awareness is to help people understand the importance of voting. Our students motivated the citizens to express what they want from their leaders by raising Awareness about voting. This program will lead to better governance, which is what everyone wants. a democracy that is free, fair, and representative.

Our students played a pivotal role in that extension activity. They gave a lot of advice to the people on how to cast their vote safely. They point out that no one should sell their votes. Our students have created intellectual citizens through this wonderful program.

### About Siva:

- 12 Year of Experience in Academia
- Founder of Atlas Academic Advisory Pvt., Ltd.,
- Expertise in IPR especially in Patent filing

### Awards

1. I have been selected as a "Most Promising Educators in Higher Education across India 2019" by uLeKtz wall of Fame.
2. I have been selected for "Maximum Patents filed in the Year 2019" in India Book of Records 2021 Edition.
3. I have been selected for "Young Personality of the Year Award (Below 40 Years) at 2nd International Academic and Research Excellence Awards (IARE) 2020 by GISR Foundation.

### Resource Person

1. Conducted a One Day Online Webinar "IPR Awareness program" as a Resource Person Collaborated with Keyway Consultancy, pvt Ltd on 13-05-2020, on YouTube Live .Total Number of Participants around 2000. [\[View\]](#)
2. Conducted a One Day Online Webinar "Patent Drafting and Claiming Analysis" as a Resource Person Collaborated with SV Group of Institutions, Tirupati, on 26-05-2020, on Google Meet & YouTube Live .Total Number of Participants around 1000. [\[View\]](#)
3. Conducted a One Day Online Webinar "IP Strategy and Patent Protection" as a Resource Person Collaborated with SNS College of Engineering, Coimbatore, Tamilnadu on 30-05-2020, on Google Meet & YouTube Live .Total Number of Participants around 500 [\[View\]](#)
4. Conducted a One Day Online Webinar "Introduction and Basics of IPR " as a Resource Person Collaborated with AVNIET, Hyderabad, on 04-06-2020, on WebEx & YouTube Live Total Number of Participants around 500. [\[View\]](#)
5. Conducted a One Day Online Webinar "Patent Prosecution" as a Resource Person Collaborated with SNS College of Technology on 06-06-2020, on Google Meet & YouTube Live .Total Number of Participants around 500. [\[View\]](#)
6. Conducted a One Day Online Webinar "Patenting Your Innovations" as a Resource Person Collaborated with St. Peter's Engineering College on 16-06-2020, on Google Meet .Total Number of Participants around 1000.

7. Conducted a One Day Online Webinar "How to be a Patent Holder" as a Resource Person Collaborated with Dev Bhoomi Group of Institutions, Dehradun on 18-06-2020, on Zoom. Total Number of Participants around 300.
8. Conducted a One Day Online Webinar "Intellectual Property Rights" as a Resource Person Collaborated with SV Engineering College on 20-06-2020, Sponsored by MHRD Innovation Cell, Govt of India, Delhi, on Google Meet & Total Number of Participants around 300.
9. Conducted a One Day Online Webinar "Introduction to IPR" as a Resource Person Collaborated with KL UNIVERSITY, Vijayawada on 20-08-2020, Sponsored by MHRD Innovation Cell, Govt of India, Delhi, on Google Meet & Total Number of Participants around 1000.
10. Conducted a One Day Online Webinar "IPR Drafting and Claims" as a Resource Person Collaborated with Geethanjali College of Engineering and Technology on 20-10-2020, Total Number of Participants around 200.
11. Workshop on "Design thinking, Critical thinking and Innovation Design" Organized by the Department of Information Technology, Vel Tech Multi Tech Dr. Rangarajan Dr. Sakunthala Engineering College, Chennai Date: 10.02.2022
12. Department of CSE, KGR CET, Hyderabad has served as guest lecture on "Intellectual Property Rights", organized by the School of Computing and Information Technology, REVA University, Bangalore on 14.02.2022.
13. A National Level Webinar on "Intellectual Property Rights", Department of Computer Science and Engineering and Institute Innovation Council (IIC), Sri Visveswara Engineering College for Women (A), Bhimavaram, on 26, February 2022 as Resource Person

#### International Patent

1. WIPO PATENT "System and Method for Agricultural grievance Management" have been filed as a first Applicant and Inventor in the PCT/IB2020/050007 on 02-01-2020.
2. An Artificial Intelligence based System for Breast Cancer Detection. Germany Patent No. 202022100092. 2022
3. An Intelligence System for Weather Monitoring and Natural Disasters Prevention Using IoT and ML. Germany Patent No. 202022100460. 2022

#### National Patent

1. PATENT "System and Method for Agricultural grievance Management" have been published as a first applicant in the Indian Patent Office (IPO), Ref No 201941001387, 2019.
2. PATENT "System and Method for Mapping entities securely" have been published as a first applicant in the Indian Patent Office (IPO), Ref No 201941010264, Mar 2019.
3. PATENT "Sensitive Information Management System and method Thereof" have been published as a Inventor in the Indian Patent Office (IPO), Ref No 201941019479, May 2019.
4. PATENT "Access Network Selection System, Device and Method for Reducing Specific Absorption Values for Cell Phones" have been published as an Applicant in the Indian Patent Office (IPO), Ref No 201941026048, and July 2019.
5. PATENT "System and Method for Detecting Presence of an Intruder near a Neonatal CRIB" Have been published as an Applicant in the Indian Patent Office (IPO), Ref No 201941028405, and July 2019.

## IPR REPORT

On July 20, 2023, a national webinar on the introduction to IPR was conducted. Ms. Preethi, Assistant Professor, Department of Chemistry, delivered the welcome address. Ms. Priyadharshini, Assistant Professor, Department of Physics, introduced the resource person, Dr. S. Siva Shankar, M.Tech., Ph.D., MISTE, MIAENG., MCSTA., MEAL., MIRED., an expert in IPR. The objective of the webinar was to raise awareness of IPR and encourage faculties and students to use IPR tools for protection and enforcement of their rights. The webinar highlighted the role and rising importance of intellectual property rights in a competitive and globalized economy. It stressed the importance of various attributes of intellectual property, including copyrights, industrial designs, patents, trademarks, internet domain names, semiconductor layout designs, and the aspects of the regulatory framework associated with them. The seminar further laid stress on mechanisms for protection of intellectual property rights, an overview of the Indian Intellectual Property Rights Acts, support through grants for innovations, and commercial aspects of IPRs. Later, queries were asked by the participants to the resource person, and the program came to an end with a shanti mantra.

## Report

In our PG Department of Mathematics, we conducted an extension activity on March 1, 2024, on voter awareness at Paganatham. Students gave wonderful awareness to the people. They felt very proud to raise awareness among the people. Our students gave pamphlets to the people to raise awareness. We have conducted more programs by our students, like dance, singing, and enacting drama, to raise voter awareness among the people.

This program provides information about voting and how to be a responsible voter. A lot of People want to vote, but many are not aware of its need or how to cast it. This idea of voting awareness is to help people understand the importance of voting. Our students motivated the citizens to express what they want from their leaders by raising Awareness about voting. This program will lead to better governance, which is what everyone wants. a democracy that is free, fair, and representative.

Our students played a pivotal role in that extension activity. They gave a lot of advice to the people on how to cast their vote safely. They point out that no one should sell their votes. Our students have created intellectual citizens through this wonderful program.

## SUSTANIABLE FARM VISIT BY EXNORA CLUB

### REPORT (2023-2024)

On behalf of the EXNORA CLUB, I request your permission to organize a visit to a sustainable farm for our club members on [26.12.2023] at Thennilai. This visit aims to provide students with practical exposure to sustainable farming practices and their environmental benefits. We believe it will be an educational and enriching experience.

We have made arrangements for transportation and will ensure proper supervision throughout the visit. We kindly request your approval for this educational excursion.

On behalf of the Exnora Club, we have conducted a sustainable farm visit on (20.12.2023) at Thennilai surrounding. The main motif of this visit is to provide students with practical exposure to sustainable farming.

We reached that place sharply at 11 a.m., and we started our visit. We took more than 100 students for that sustainable visit. It was a nice experience for them to learn about the importance of nature and farming.

Our students had an enriching experience through this visit. Our students visited lots of plants and farms during this visit. One of the students spoke about the importance of nature as well as the importance of farming in that marvellous visit.

We also learned a lot about the herbal plants along with our students. Our Students would be guided by a wonderful guide. Our students had a wonderful experience during this visit. Our students played a pivotal role. in their visit. They were interested in the farm visit. We have completed our sustainable farm visit at 1.00 PM.

## REPORT

The Tamil Nadu Government of Police Department organized an awareness program on "Basic Traffic Rules" at Sri Sarada Niketan College of Science for Women at Kodangipatty. Nearly 70 students participated in this event. Our college students gave basic traffic rules awareness to wearing a helmet for two-wheelers and seat belts for those who drive four-wheelers and to following traffic rules. Our students have been fully energetic and enthusiastic throughout this program. While people are breaking the rules, unfortunately, we are suffering accidents. Hence, awareness of basic traffic awareness is important.

### राष्ट्रीय एकता दिवस शपथ

मैं सत्यनिष्ठा से शपथ लेता हूँ कि मैं राष्ट्र की एकता, अखंडता और सुरक्षा को बनाए रखने के लिए स्वयं को समर्पित करूँगा और अपने देशवासियों के बीच यह संदेश फैलाने का भी भरसक प्रयत्न करूँगा। मैं यह शपथ अपने देश की एकता की भावना से ले रहा हूँ जिसे सरदार वल्लभभाई पटेल की दूरदर्शिता एवं कार्यों द्वारा संभव बनाया जा सका। मैं अपने देश की आंतरिक सुरक्षा सुनिश्चित करने के लिए अपना योगदान करने का भी सत्यनिष्ठा से संकल्प करता हूँ।

### RASHTRIYA EKTA DIWAS PLEDGE

I solemnly pledge that I dedicate myself to preserve the unity, integrity and security of the nation and also strive hard to spread this message among my fellow countrymen. I take this pledge in the spirit of unification of my country which was made possible by the vision and actions of Sardar Vallabhbhai Patel. I also solemnly resolve to make my own contribution to ensure internal security of my country.

## REPORT

The extension activity on computer basics for school students aimed to enhance their understanding and proficiency in the fundamentals of computer concepts.

The program targeted students from grades 6 to 8, providing them with hands-on experience and theoretical knowledge. We conducted interactive lectures to introduce students to computer hardware and software applications.

We organized practical sessions where students had the opportunity to work on a computer using paint. Students gained a better understanding of computer hardware and software applications. Students developed practical skills using software applications such as paint, MS Word, and MS Excel.

Feedback from students and school teachers was overwhelmingly positive, with many expressing appreciation of the practical session of the program.

## REPORT:

On February 2, 2024, an International Conference on AI-Powered IoT for Intelligent Systems and Smart Applications was conducted by the Department of Computer Science. The sessions were taken by Dr. Rajassekaran Selvaraju, Professor, Department of Information Technology, College of Computing and Information Sciences, University of Technology and Applied Sciences, Ibri, Al Dhahira, Sultanate of Oman; Dr. Rajesh Kanna, Assistant Professor, Department of Computer Science, Christ (Deemed to be University), Hosur Road, Bangalore; and Dr. AKILASHRI P. S. S., Head and Associate Professor, Department of Computer Science, National College, Trichy, under the title Overview of AI-Driven Sensor Networks. In those sessions, they explained how to gain insights into the development of predictive models, their applications in various industries, and the challenges associated with ensuring accuracy and reliability. They also thoroughly explained the various benefits of AI-powered IoT. They afforded many examples, and then students were clear and understood various aspects of artificial intelligence in the Internet of Things, which provides a wide range of advantages for businesses and consumers, including proactive intervention and intelligent automation. The sessions were very interactive. Students had asked many questions to resource persons to gain knowledge about AI-driven solutions. The outcome of the feedback from the students and faculty members was considered successful.

 Time: 10.00AM – 3.30 PM

Sri Sarada Nisaran College of Science for women, Katur, was founded in 1987 to cater to the educational needs of the women of Tamilnadu. It is a Self-financing College affiliated to Bharathidasan University. Character building and culture inculcation are the basis upon which the Super structure of modern education is raised here. The education vision and mission of the college are reflected in the motto of the college "The Harmonious Development of the Hand, the Heart and the Head". The college is accredited by AICTE. Accredited with B Grade by NAAC. Institution recognized under Sections 2(F) and 12(B) of UGC.

**ABOUT THE DEPARTMENTS**

The departments established its B.Sc., and M.Sc., courses on various streams since the year 1987 with a sanctioned strength of 60. Physics and Mathematics are the allied subjects for B.Sc., Chemistry, and Chemistry is offered as an allied subject for Physics and Mathematics. The related disciplines of microbiology are biochemistry, biostatistics, and bioinformatics. They were one of the college's prospective departments. The departments were equipped with large laboratories and instruments to help budding scholars practice their craft effectively. The objective of certificate programs like making soap and detergent was to motivate and develop the next generation of trade proprietors. Mathematics undergrads were offered certificate courses like R programming, Python, and Vedic Maths makes a difference in the students to procure information in making a run of applications. Furthermore, the students are working on research projects. The departments are administered by a group of dedicated and efficient faculty members. So far, the departments have resulted in over thirty university ranks. Numerous students obtained positions as PT assistants, police officers, railway employees, and other positions last year. Every student who completed their courses at our college has found employment with the government. Our department hosts a large number of workshops and seminars led by knowledgeable resource persons.

**INTERNATIONAL CONFERENCE ON**

# Report

The international conference was held on February 9, 2024, at our college. This program was organized by the science department, which consists of chemistry, mathematics, physics, microbiology, and hospital administration. The program started with prayer, followed by Amba blessings.

The chief guests were honored with moments by Amba. Next, the 1st session was initiated by Dr.S.Gokulraj, M.Sc., M.Phil., Ph.D on the topic of "Interdisciplinary approaches in mathematics and science.

The next session started at 11.50 a.m. Thiru L. Sathiskumar, Research scholar, Joenbuk National University, South Korea, has given a lecture on the recent "Developments in Lead Acid on Battery Technologies with Safety Characteristics."

The next session was taken over by Dr. B. Prabha, Assistant Professor, Department of Chemistry, Karpagam Academy of Higher Education, Coimbatore, and he gave a lecture on "Heterocyclic compounds in medicinal chemistry research."

Many students from numerous colleges have participated in paper presentations and poster presentations. A certificate was distributed to the other college participants and awarded to the students for the best presentation. Finally, a photo was taken with the chief guests along with the participants.

Next, P. Jeevika, II B.Sc. Mathematics, delivered the vote of thanks. The program ended with a Shanthi mantra.

**ABOUT OUR COLLEGE**

Sri Sarada Niketan College of Women's Education was established in 1967 to cater to the educational needs of the women of Karnataka. It is a self-financing college affiliated to Sri Sarada Niketan University. Character building and cultural activities are the basic aims which the college strives to attain in its educational programme. The education given at this college is of the highest quality and is in accordance with the standards of the National Council for Women's Education. The college is situated in Kasur, Karnataka.

**ABOUT OUR DEPARTMENT**

The Department of English empowers students to seek, to know, to serve, to learn, to better understand the world through thoughtful reading, and to better express themselves through creative writing. While the department's objectives target the students and reflect our character, our mission extends to the entire student body through the comprehensive program, the courses we teach, and the writing center. A course in English provides an opportunity for students who major in other fields to pursue their interests in acquiring expertise in writing and literary studies.

**ABOUT THE CONFERENCE**

The aim of the National conference is to better understand and appreciate the teaching by developing teachers and education staff with the latest knowledge and skills. Presenting 2015 Classroom Management Skills, Effective Teaching Strategies, Knowledge and how to complete them in the education programme.

**Topic Areas:**

- Research Skills: New research and practice about classroom management.
- Classroom Management: Reflections and lessons of various teaching practices.
- Writing Approach: How to enhance the right environment for collaborative learning.
- Classroom Climate: Significance of Learning, Teaching, Reading and Writing.
- Professional Skills: The role of soft language and interview skills.

**CONFERENCE REPORT (2023-2024)**

The Department of English conducted a Multidisciplinary Conference on Soft Skills, Research Skills and Classroom management skills for Effective Teaching on 28.02.2024. We invited Dr. Monika, Dr. K. Indhirani, Dr. P. Shanthy and Dr. P. Saravanan as our chief guests. Our students welcomed our chief guests and dignitaries of our college with the memento and gifts. The main objective of our conference is to give awareness about the importance of the skills for effective teaching to all of our students. Students from various Institutions arrived at our conference and gained lots of knowledge through our conference.

Our conference began with the prayer song at 10.30AM followed by Lighting ceremony. After that Amba showed her blessing through her energetic words. Amba's words inspired and motivated the students a lot. Presidential address was given by our principal Dr. N. Nagadeepa. She gave a speech about our conference as well as the importance of English in our everyday life.

Our students introduced the guests. Our 1st Session began at the time of 11.20AM, Dr. K. Indhirani has taken over the session where she has presented her paper on the topic of Soft Skills for Effective Teaching. Her presentation was very useful to our students. She handled the session through online mode. That session ended at 11.45 AM.

Our second session began at the time of 11.55 AM, Dr. P. Shanty has take over this session. She has presented her paper titled on Research Skills for Effective teaching. Her presentation was very useful to our students. She handled this session through online mode. This session ended at the time of 12.20 PM.

*MG*

Our third session began at the time of 12.20 PM, Dr. P. Saravanan has presented his paper titled on Soft Skills for Effective Teaching. The session would end at 1.00PM. Then students went for their lunch. Fourth session began at 2.00 PM. This session was handled by Dr. Monika. In this session she presented her paper presentation on the topic of Classroom management Skills for Effective Teaching. This session ended at the time at 2.45 PM. Then we distributed the certificates to the students who participated in our National Conference. Our session ended with a Vote of thanks and Santhi mantra.

### राष्ट्रीय एकता दिवस शपथ

मैं सत्यनिष्ठा से शपथ लेता हूँ कि मैं राष्ट्र की एकता, अखंडता और सुरक्षा को बनाए रखने के लिए स्वयं को समर्पित करूँगा और अपने देशवासियों के बीच यह संदेश फैलाने का भी भरसक प्रयत्न करूँगा। मैं यह शपथ अपने देश की एकता की भावना से ले रहा हूँ जिसे सरदार वल्लभभाई पटेल की दूरदर्शिता एवं कार्यों द्वारा संभव बनाया जा सका। मैं अपने देश की आंतरिक सुरक्षा सुनिश्चित करने के लिए अपना योगदान करने का भी सत्यनिष्ठा से संकल्प करता हूँ।

### RASHTRIYA EKTA DIWAS PLEDGE

I solemnly pledge that I dedicate myself to preserve the unity, integrity and security of the nation and also strive hard to spread this message among my fellow countrymen. I take this pledge in the spirit of unification of my country which was made possible by the vision and actions of Sardar Vallabhbhai Patel. I also solemnly resolve to make my own contribution to ensure internal security of my country.

### ABSTRACT

The paper titled HUMAN RESOURCE MANAGEMENT SYSTEM is basically concerned with managing the Administrator of HUMAN RESOURCE Department in a company. A Human Resource Management System, refers to the systems and processes at the intersection between human resource management and information technology. It merges HRM as a discipline and in particular its basic HR activities and processes with the information technology field, whereas the programming of data processing systems evolved into standardized routines and packages of enterprise resource planning software. The main objective of this paper is to reduce the effort of Administrator to keep the daily events such as attendance, projects, works, appointments, etc. This paper deals with the process of identifying the employees, recording their attendance hourly and calculating their effective payable hours or days. This paper should maintain the records of each and every employee and their time spend in to company, which can be used for performance appraisal. Based on that transfer, removal, promotion can be done.

**KEYWORDS:** Discipline, Standardized, Grievances, Laying off, Sustainability.

### INTRODUCTION:

Human resource management is the strategic approach to nurturing and supporting employees and ensuring a positive workplace environment. Its functions vary across different businesses and industries, but typically include recruitment, compensation and benefits, training and development, and employee relations. The term human resources was first used in the early 1900s, and then more widely in the 1960s, to describe the people who work for the organization, in aggregate. In the past, its role was quite limited. Within any company or organization, HRM is a formal way of managing people. It is a fundamental part of any organization and its management.

### OBJECTIVES OF HUMAN RESOURCE MANAGEMENT

1. **Societal objectives:** Measures put into place that responds to the ethical and social needs or challenges of the company and its employees. This includes legal issues such as equal opportunity and equal pay for equal work.
2. **Organizational objectives:** Actions taken that help to ensure the efficiency of the organization. This includes providing training, hiring the right number of employees for a given task or maintaining high employee retention rates.
3. **Functional objectives:** Guidelines used to keep HR functioning properly within the organization as a whole. This includes making sure that all of HR's resources are being allocated to their full potential.

4. **Personal objectives:** Resources used to support the personal goals of each employee includes offering the opportunity for education or career development as well as maintaining employee satisfaction.

**FUNCTIONS OF HRM:**

**Job analysis:**

Determining the skills and experience necessary to perform a job well may make it easier to hire the right people, determine appropriate compensation and create training programs.

**Workforce operations:**

Creating health and safety policies, responding to employee grievances, working with labor unions, etc., can help support regulatory compliance.

**Performance measurement:**

Evaluating performance is important because it not only fosters employee growth through constructive feedback, but also serves as a guide for raises, promotions and dismissals.

**Incentive programs:**

Recognizing achievements and rewarding high performers with bonuses and other perks is a proven way of motivating employees to take ownership of business objectives.

**Professional development:**

From orientation to advanced educational programs, employee training serves to improve productivity, reduce turnover and minimize supervisory needs.

**IMPORTANCE OF HUMAN RESOURCE MANAGEMENT IN ORGANIZATION:**

**Maximizing Productivity and Profitability:**

It really focuses on both the quality and quantity of employees, as it provides them with opportunities to grow in their respective domains. As a result of these opportunities, employees are highly motivated and meet the established goals. Hence, it allows the organization to capitalize, create a presence in the market, and enhance profitability.

**High Quality of Work:**

A positive work environment, employee recognition, and a sense of responsibility motivate employees to give their best, which makes sure to yield a high quality of work as it helps to achieve set goals. Also hiring the right people and making sure to train them well is important for getting the best quality work. This is crucial, as it helps the employees learn and quickly adapt to the organization's working culture.

**Helping employees achieve the set goals:**

Human resource management is important in achieving the set goals, as companies provide compensation, benefits, and rewards to recognize their employees. These activities help motivate employees to give their best. It also improves employee morale and gives employees new energy to perform better.

**Improving Teamwork:**

HR managers need to make sure every employee feels important and worthy in every department. They emphasize the importance of HRM in teamwork and team spirit in the workplace. So, that it will make a great contributions to get the desired results. Moreover, AI tools with GPT-4 powers, like the ones featured at AI tools with GPT-4 powers, are revolutionizing the way businesses interact. Also, the automate tasks, further enhancing the teamwork.

**Reducing the gap between demand and supply of Human resources:**

The role of HR management in an organization extends beyond personnel management. So, to include determining the sufficiency of the pool of available human resources. HR managers organize hiring and

selection campaigns to fill any employment gaps that may exist within the company. Similar to laying off ineffective employees, human resource management is responsible for this.

#### **Building a corporate image:**

For businesses, sustainability involves preserving their storied, ideal reputation in the marketplace. Everyone wants to be associated with a business that is well-known for its ethical behavior. Also, which offers commitment to the community and its employees. Contrarily, businesses that treat their employees more like resources than as people are in danger of failing completely.

#### **HUMAN RESOURCE MANAGER (HR):**

A human resources (HR) manager is someone who oversees the administrative and organizational functions of a company or business. The manager usually heads the HR department, and they play an important role as a bridge between management and employees.

#### **RESPONSIBILITIES OF HR MANAGER:**

- Developing and implementing the HR strategies and initiatives designed for the overall business plan.
- Coordinating and supervising the work of the HR team.
- Communicating with other department heads to know about their staff and training requirements.
- Designing job descriptions and revising them periodically.
- Heading recruitment, interviews, hiring and training procedures.
- Handling the exit interviews to examine the shortcomings of both the employee and the organisation.
- Creating, maintaining, and revisiting company policies and employment laws.
- Most important, working on maintaining a positive and open work environment.

#### **SKILLS OF HR MANAGER:**

**Communication And Problem-Solving Skills-**Employees and other HR executives often reach out to HR managers, for their different functional and operational concerns. Thus, a human resource manager must have effective communication and problem-solving skills, to build an effective workplace environment.

**Leadership Skills-** The HR professional leads different teams to ensure the completion of diverse tasks and responsibilities within the organisation. Thus, they need to have excellent leadership skills. Learn more about **what leadership is** and its role in the HR Manager's career.

**Technical Skills-** The knowledge of emerging technologies and trends help the HR managers streamline the different processes for growing productivity.

**Organisational Skills-** Being a human resource manager, one must juggle a wide range of responsibilities. They assure all departments meet the decided deadlines and for an effective outcome.

**Time Management Skills-** The capability to address multiple projects at a time demands excellent time management skills.

#### **RECENT TRENDS IN HUMAN RESOURCE MANAGEMENT:**

##### **1. A hybrid structure:**

The personnel groups relocated when work-from-home became a routine, leaving all the teams and companies to disband from one particular geographical location to anywhere in the nation. Hybrid work culture is also a natural first step today for a business to expand in foreign markets too. The hybrid culture automatically opens the door for new opportunities for growth and earnings. Over the past few years, expanding through foreign markets has become easier and more affordable due to the rise in hybrid culture.

**ABSTRACT**

The Goods and Services Tax (GST), implemented on July 1, 2017, is regarded as a major taxation reform till date implemented in India since independence in 1947. GST was planned to be implemented in April 2010, but was postponed due to political issues and conflicting interest of stakeholders. The primary objective behind development of GST is to subsume all sorts of indirect taxes in India like Central Excise Tax, VAT/Sales Tax, Service tax, etc. and implement one taxation system in India. The GST based taxation system brings more transparency in taxation system and increases GDP rate from 1% to 2% and reduces tax theft and corruption in country. The paper highlighted the background of the taxation system, the GST concept along with significant working, comparison of Indian GST taxation system rates with other world economies, and also presented in-depth coverage regarding advantages to various sectors of the Indian economy after lavishing GST and outlined some challenges of GST implementation.

**KEY WORDS :** Goods and Services Tax, GDP, Tax structure, Tariffs, Economic reforms.,

**INTRODUCTION:**

GST is a tax structure which is effectively settled in numerous nations all around the world and presently it is a piece of Indian Economy. It was presented around a decade prior yet got deferred because of governmental issues between administering party and opposition. At last, GST became effective at 12 PM on 1 July 2017 by the president of India through the execution of constitutional amendment. It is considered as the greatest taxation change in Indian Economy. India is presently the fifth biggest economy on the planet according to IMF & is viewed as one of the world's quickest developing economies.

A value added tax that will replace all other indirect taxes is GST. GST will boost the GDP gradually. It will also enhance the level of India in both domestic and international market. It is one of the biggest economic reforms in India and can be said as a single tax which is imposed on the supply of various goods and services. It is a comprehensive, multistage destination-based tax.

#### **GST IN INDIAN ECONOMY:**

GST stands for Goods and Services tax. Before the execution of GST, there were numerous indirect taxes which the organizations and businesses needed to pay. After the implementation of GST which is one of the greatest and huge financial change. Fundamentally, the point is to give a rearranged and a tax structure which is imposed on the financial exercises and will help in expanding the productivity of the organizations. It is a comprehensive nature tax which is levied on manufacturing, selling and consuming goods and services. GST has supplanted practically every one of the roundabout taxes aside from some which states and central levy taxes. Very nearly, 160 nations across the globe have executed GST instead of indirect taxes.

GST is collected by the state, where the goods and services are consumed. This states that it is a destination-based tax. India has implanted a dual GST model i.e. both the states and central will levy taxes on goods and services. GST was finally implemented with effect from 1st July 2017. SGST is the GST collected by state.

The central GST which is collected by the Centre is called CGST. The tax applicable on interstate and import transactions is called IGST which is again collected by Centre and the tax applicable on transactions within the union territories without legislature like Daman & Diu, Chandigarh, Lakshadweep islands is called UTGST, collected by the Union territory.

#### **NEED FOR GST IN INDIA:**

The introduction of GST is one of the significant stages of economic reform in the country. GST is essentially summation of different state and local taxes into a one single tax. GST helps in decrease of twofold taxation, falling impact, issue of arranging and clearing taxes, variety of taxes and so on. GST made a more extensive tax base, rationalization of tax construction and harmonization of state and Center organization.

Before GST there were different VAT rates across the country which differs from state to state but with the introduction of GST, there is a uniform tax system across the country and the taxes are divided between the state and the central government. GST will help in reduction of tax theft and corruption in our economy.

Goods and Services tax influences each individual and business. There is some ups and downs in business areas before all else, in light of the fact that it won't show impact in instantly. Authors have concentrated on the significance of VAT in the Indian Economy and its impact on the general public. Authors have also referenced that as per specialists GST is probably going to improve the arrangement of tax collection and will support the financial advancement of India.

GST will almost eliminate cascading impact on the creation and circulation cost of goods and services. This reduced cost of goods and service leading to accelerated GDP growths without tax barriers will leads to economies of scale in manufacturing industry and reduces the supply chain cost.

GST is supposed to diminish the production cost by 15% to 20% in a large number of the items considering full info tax credit which will well affect the costs of item. GST will remove the tax distortions from the economy. A simplified tax system will attract more manufacturing investment for growth. Multiple taxes that currently exist will no longer be roadblock. This will reduce the compliances to be fulfilled as compared to present situation.

### **GST TAX SLAB:**

The study about GST provided more statistical information. It was found that there are about five slabs for the collection GST -0%, 5%, 12%, 18%, 28%. But some products like electricity, alcohol and petroleum goods are not included in GST. It can be taxed by the state government individually according to the old tax structure.

There is a 4-level tax sections as per which the tax rate is forced on different items and services. After the execution of GST, there is an adjustment of the tax structure. The taxes are forced on items, contrast as indicated by their need in everyday.

### **ZERO TAX:**

Some items enjoy zero tax rate on various goods, which are Barley, wheat, oats, kaja (other than kaja pencil stick), sanitary napkins, music books, coloring books and drawing books for children, all types of salt and human hair, hotel and lodge bill under Rs. 1000, bank charges on saving account and Jan Dhan Yojana.

### **5% Tax Rate:**

Some goods which are taxed under 5% slab are cashew nuts, aggarbati, kites, postage stamps, bio gas, insulin, matting, walking sticks, Pawan chakki atta, Braille typewriter, Braille paper, braille watches and other hearing aids, takeaway food restaurants, hotel with room tariffs less than Rs. 7500 and special flights for pilgrims.

### **12% Tax Rate:**

Some goods which are taxed under 12% slab are plastic beads, ketchups, sauces and mustard sauces, all kinds of diagnostic kits and reagents, notebooks and copies, spoons & forks, fish knives, fixed speed diesel engines, cake knives, skimmers, playing cards, carrom board and other board games, two-way radio used by military and police forces, corrective spectacles, Business class air tickets and movie tickets under Rs. 100.

### **18% Tax Rate:**

Some goods which are taxed under 18% slab are kaja pencil sticks, plastic tarpaulin, toilet cases, dental wax, school bags other than leather bags or leather composition, aluminum foil, rear tractor tyres or tyre tubes, printers other than multifunction printers, weighing machine other than electronic weighing machine, electrical transformer, static converters, CCTV, baby carriages, televisions and monitors (up to 32 inches), ball bearings and roller bearings, set up box for TV, electrical filaments, power banks of lithium-ion batteries and bamboo furniture, Movie tickets above Rs. 100, branded garments, telecom and financial services and restaurants inside hotels with bill of Rs. 7500 or above.

### **28% TAX RATE:**

Goods which are taxed under this slab are pan masala, dishwasher, weighing machine, paint, cement, hair clippers, motorcycles, sunscreen, betting on casinos and racing, hotel stay bill above Rs. 7500, and automobiles.

### **EFFECT OF GST ON GROWTH OF ECONOMY:**

Mainly three components of society are affected by the change in tax rates of goods and service, namely: Consumer, Producer and Country. To explain the effect of this shift in tax here are some examples explained below.

The effect on restaurant industry which has shifted its tax rate from 18% to 5%. Tax distribution of restaurant charges after GST shows that the tax charged from the consumers has decreased as compared to pre-GST tax scheme. Prior all the restaurants used to charge 18% but now the tax charged on all restaurants is 5%.

### **CONCLUSION:**

The implementation of GST has given a positive notion in 150 countries across the world and it will

give a positive impact on the Indian service sector. It will increase the GDP undoubtedly but it will take some years to show the effect because economic growth may not jump immediately, but its beneficial for the economy of the country. So, we can conclude by stating that the execution of GST will give relief to the producers and consumers by giving them input tax credit setoff. Good and services tax likely bring balance to government empowerment. The malicious activity of not paying the tax will go away under this regime so that both Government, as well as consumers, can take profit. This helps the Indian economy to become stronger and more stable. With the reduction in tax rates on various goods and services, the cost of various goods and services has been reduced. Thus, making the products affordable, and this has led to an increase in demand, which in turn would increase in production and hence will make the economy grow faster. Also, by placing the demerit goods in the highest tax slab, 28% GST council has focused on discouraging the consumption of such sin goods so as to make India a better place to live.

### ABSTRACT

Banking is the backbone of every industry and technology plays an important role in every industry. The role of technology is increasing very rapidly day by day, which is also promoting the banking industry. Banking is one of the largest financial institutions which regularly explore the opportunity of technology to provide better customer services. Over the years, banking has transcended from a traditional brick-and mortar model of customers queuing for services in the banks to modern day banking where banks can be reached at any point for their services. In today's business, technology has been the largest indicators of growth and competitiveness. The banking industry today is in the industry of its revolution. Information technology has basically been used under two different avenues in banking. One is communication and connectivity and other is business process. Today, banks have welcomed wireless and mobile technology into their boardroom to offer their customers the freedom to pay bills, planning payments while stuck in traffic jams, to receive updates on the various marketing efforts while present at a party to provide more personal and intimate relationships. This paper examines consumer adoption of a new electronic payment service as mobile banking and the positive and negative factors influencing the adoption of mobile banking in India.

**KEYWORDS:** Mobile banking, Internet Banking, Technology Adoption, Mobile Payments.

### INTRODUCTION

Mobile banking is a quite popular banking system in the world. Many banks are started to provide the mobile banking services. It also provide 24 hour service availability, location free access and service access speed represent concrete attributes of electronic channels whereas concepts like time savings and easiness-to-use represent more the benefits or consequences deriving from the use situation.

### CUSTOMER SATISFACTION

Satisfaction is the customer's fulfillment response. It is a judgment that a product or a service feature, or the product or service itself, provides a pleasurable level of consumption - related, fulfillment. In minimal technical terms, this definition can be translated to mean that satisfaction is the customers

evaluation of a product or service in It is also important to recognize that, to measure the customer satisfaction at a particular point of time as if it were static, satisfaction is a dynamic, moving target that may evolve over the time, influenced by a variety of factors. Particularly when product usage or the service experience takes place over the time, satisfaction may be highly variable depending on which point the usage or experience cycle is focused on.

#### **STATEMENT OF THE PROBLEM**

This research explores and examines the important elements that will affect the customers to use the mobile banking. It is because bankers should understand the needs of the customers so that they can improve the inadequate and insufficient of the services. This also can increase the customers' usage intention of mobile banking services. By using mobile banking, some of the problem might occur. Some customers will think that mobile banking is difficult to utilize and it's complicated. Mobile banking services might make the customers difficult to use because it is a new technology service. Some customers also will think that the mobile banking is not secure and they will meet risk. They will worry that hacker will forgery their information and takes out their money without notify the customers. They will also doubt that their money is still in their account or not

#### **REVIEW OF LITERATURE**

**Avinandan M., Prithwiraj N., (2003)**"A model of trust in online relationship banking" observed that shared value is most critical to developing trust as well as relationship commitment. Communication has a moderate influence on trust, while opportunistic behaviour has significant negative effect. Also finds higher perceived trust to enhance significantly customer's commitment in online banking transaction. An important contribution concerns how trust is developed and sustained over different levels of customer relationship in online banking.

**Suoranta M., Mattila M. (2004)**, "Mobile banking and consumer behaviour: New insights into the diffusion pattern" concluded that an indication of the characteristics of potential subsequent adopters of mobile banking and of differences between user segments and also the authors are able to comment on the influence of certain demographic characteristics and the preferred communication mode of customers on the adoption and future usage of mobile banking services.

**Sylvie L., Xiaoyan L., (2005)**"Consumers attitudes towards online and mobile banking in China", the results showed the issue of security was found to be the most important factor that motivated Chinese consumer adoption of online banking. Main barriers to online banking were the perception of risks, computer and technological skills and Chinese traditional cash-carry banking culture. The barriers to mobile banking adoption were lack of awareness and understanding of the benefits provided by mobile banking.

**Traynor P., Amrutkar C., Rao V., Jaeger T., McDaniel P., Porta T.L. (2011)**, "From mobile phones to responsible devices" highlighted that Mobile phones have evolved from simple voice terminals into highly-capable, general-purpose computing platforms. Through such vectors, mobile phones introduce a variety of new threats to their own applications and the telecommunications infrastructure itself.

**Yang A. S., (2009)**, "Exploring adoption difficulties in mobile banking services" showed that factors associated with adopting and resisting mobile banking technologies were investigated among university students in Taiwan. Adoption factors included the belief that mobile banking helps fulfill personal banking needs, provides location-free conveniences, and is cost effective. The primary factors associated with resistance included concerns over system configuration security and basic fees for mobile banking web connections.

**Chnadra Abha and Sharma. V. (2010)**. The results of this study showed that banks have posted least number of privacy policies. The interactive sites collected more personal information than sites that were not interactive. The analysis shows that new private banks and foreign banks have posted maximum number of privacy policies (63%) on their websites.

**Dar Nouman Anwar (2011)**. Electronic distribution channels provide alternatives for faster delivery of Banking services to a wider scope of customers. But despite all the opportunities and benefits created by the m-Banking, there are still many challenges that are present in the financial sector. There are also some limitations of M-BANKING as it requires awareness, knowledge and skills to operate it.

**Dixit and Datta (2010)**. An empirical study by Dixit and Datta stated that many factors like security & privacy, trust, innovativeness, familiarity, awareness level increase the acceptance of M-BANKING services among Indian customers. The result also showed that in spite of their security and privacy concern, adult customers are willing to adopt online Banking if banks provide them necessary guidance.

**Dr. ParulDeshwal (2015)** in his article entitled, "A Study of Mobile Banking in India" explains that the mobile banking concept in India. This article examines that the consumer adoption of a new electronic payment service as mobile banking and the positive and negative factors influencing the adoption of mobile banking in India. It reveals that the origin history of mobile banking in India. This study is based on exploratory research. This research is both quantitative and qualitative. The data have been grouped into two main categories - primary and secondary data. This study analyse that the basic concept of Mobile Banking, Challenges comes in front of users while adopting Mobile Banking, the positive and negative factors of Mobile Banking and the various purpose of using Mobile Banking. Perceived cost is also an important factor; therefore, this study suggests that the creative promotional and pricing strategies, including cost reduction should be implemented to attract more priceconscious customers. It is also found that customers will adopt mobile banking if they find it easy to use and understand.

**RahmathSafeena, Hema Date, Abdullah Kammani, and NisarHundewale (2012)** in their article entitled, "Technology Adoption and Indian Consumers: Study on Mobile Banking" elucidates that the technology adoption in mobile banking services based on the opinion of Indian consumers. This study determines the consumer's perspective on mobile banking adoption. This study considers the four factors perceived usefulness, perceived ease of use, consumer awareness about mobile banking and perceived risks associated with mobile banking. This study aims at examining the impact of perceived usefulness, perceived ease of use, consumer awareness on mobile banking and perceived risk on the acceptance of mobile banking by the consumers. The key intention of this paper is to evaluate those

factors that manipulate the nature of customers towards mobile banking and their growing tendency towards the online financial institutions. A survey instrument in the form of questionnaire was developed through data collected from previous studies on acceptance of mobile banking. Likert scale is used in order to identify the respondents' perceptions towards mobile banking adoption. This study concludes that bank customers are likely to adopt mobile banking when it is easy to use.

**Renju Chandran (2014)** in his article entitled, "Pros and Cons of Mobile Banking" analysed the benefits and problems of mobile banking. This is a conceptual paper which is based on secondary data. This study analyses that the pros, cons and future of benefits in India. The study is mainly descriptive in nature. Secondary data are used for the purpose of the study. The recent trend of mobile banking statistical report is to be analysed in this study with the source of RBI website. This study concludes that the banking apps can make bill paying and bank account management incredibly convenient, but the risk of identity theft is a major downside. Fortunately, it's easy to avoid most of the pitfalls with commonsense solutions like strong password protection and secure connections. By keeping these security tips in mind consumers can enjoy a safer mobile banking experience.

#### **DEFINITION OF M-BANKING:-**

M- Banking can be defined as a channel whereby the customer interacts with a bank via a mobile device, such as a mobile phone or personal digital assistant (PDA). The emphasis is on data communication, and in its strictest form m-banking does not include telephone banking, either in its traditional form of voice dial-up, or through the form of dial-up to a service based on touch tone phones.

#### **MOBILE BANKING**

In the simplest form, mobile banking services enable users to receive information on their account balances via SMS. Some new software were updated in mobile phones in order to make transfer funds between accounts, stock trading, and confirmation of direct payments through the mobile phone's micro browser. Mobile financial services in these smart phones have been introduced by quite a few European banks and were made successful. Banks are one of the key players that want to preserve their position in the financial market as the provider of banking services and central payment. Banks help customer's to go on with transactions through mobile phone with the help of technologies like WAP, SMS etc. This made banks to merge internet and telephone and leverage it to cut costs and at the same time provide convenient to its customers. Mobile devices such as mobile phones, PDAs, wireless tablets and any devices connected to mobile telecommunication network make it possible for payments to be made. The positive reception of mobile payments will make possible new and unforeseen ways of convenience and commerce. Mobile payments can become a complement to cash, cheques, credit cards and debit cards. Account based payment instruments such as electronic funds transfer, Internet banking payments, direct debit and electronic bill payments can be paid using this service and it also includes payment of bills especially utilities and insurance premiums.

#### **MOBILE BANKING CONCEPT:**

Mobile Banking is a technique of providing facilities to a consumer to carry out banking transactions on the mobile phone through a data service-provider. Banks need to provide services to their customers whenever they require it and wherever they are. We can rather call this facility as "Anywhere and any moment banking", but it is confined to only information about an individual's account and not the cash services. Mobile banking functions through short messages. Customers have to, therefore, setup Short Message Service (SMS). They are required to activate Mobile Messaging Service (MMS) in their respective mobile phones. Mobile banking is one of the major significant passage through which the customers can be relocated from front office functions to indirect passage, in order to save their precious time as also that of the executives operating in the bank. The time saved can be effectively and efficiently utilized for business development and cost reduction. Cellular phones have achieved so much

**ABSTRACT**

Over the course of starting and operating a small business, you will need to create and present detailed reports to inform stakeholders about your business. While these stakeholders vary in that they may include investors, creditors, suppliers and even customers, they all tend to have extremely busy schedules. Writing a concise yet complete business abstract becomes extremely important, because stakeholders may never read your full report. A great abstract not only motivates readers to explore the full document, it provides them with sufficient information should they elect not to.

A common mistake in writing a business abstract is attempting to write an abstract before completing the report. Before you can write a summary, however, you must complete the work you are summarizing, whether it's a business plan, marketing plan or financial report.

By 2028 it's expected to be worth more than \$32 billion, which means it's set for incredible annual expansion of nearly 60%.

Despite a few recent hiccups, cryptocurrency may still be the world's fastest-growing industry, and you can get in on the action with your own crypto business. Assuming you're not going to create your own cryptocurrency, which requires programming expertise, you'll need to decide whether you want to start a wallet, which is an application that helps users store and spend cryptocurrencies, or an exchange, which enables cryptocurrency trade. Another option is to become a cryptocurrency investor and broker, which will require considerable expertise regarding the fast-evolving field of cryptocurrency. If you do find a niche, this is an industry that could deliver massive returns.

### **Freight Forwarding Business:**

With many countries opening up their economies, international trade volumes are increasing again and driving growth in the freight forwarding market. In the US, freight forwarding brokerages and agencies are expected to earn more than \$150 billion in 2022. They comprise the second largest segment in the transportation industry. There's still room for new players, especially those who can offer innovative

products and services. If you're thinking of starting your own freight forwarding business, now is the time to do so.

Freight forwarding may seem like a complex business to start, but it can be a breeze with the right tools. A wise move before you launch your business is to choose the services that you will offer, whether it's customs clearance or transportation services. The permit and license requirements will depend on your choice. You also need to be knowledgeable about the legal issues. Find a good location for your facilities, but go digital to promote your business and coordinate with your clients. If you do this right, you will soon be raking in profits!

#### Online Gambling:

Make sure you do business in any of the six states that have legalized online casinos – New Jersey, Pennsylvania, Michigan, Delaware, West Virginia and Nevada. At least seven other states have introduced laws, hoping to do the same. The online gambling market was valued at more than \$2 billion in 2020 and is projected to grow 17% annually the next five years as bettors continue to migrate from offline to online gambling.

So if you're ready to take the plunge into the world of online gambling, start by choosing the software provider. There are several in the market, so you have to research each provider's pros and cons. Once you've made that choice, select your gambling content and apply for a license. You also need to establish safe and sure payment processes. Finally, develop your website and promote your business through social media and other platforms.

#### CONCLUSION:

In order to be successful in any endeavor in life in today's society, planning ahead is key. Likewise in business, strategy is key in order for survival especially when entering a market that is new and foreign, such as that of India. India is an especially fertile place for the international market due to globalization and similar factors that has modernized the country very thoroughly within the class one to two decades, though it also has a strong and vibrant history of economic trade and of commerce. Many other corporations have already entered India's market such as Sony and Nokia. Food markets have also penetrated their way into the Indian market. Good examples of recently established and new markets that are particularly food focused in India include McDonalds, Taco Bell, and Dunkin' Donuts. These brands of successfully infiltrated the Indian market and consumer base. Therefore: a food and food services corporation which is planning to start its business in India today must look past what has already been done by established food corporations such as McDonalds, Taco Bell, and Dunkin' Donuts and look at current trends such as the country's progressive and forward movement towards modernity and the concern of the local population of health food conscious consumers who are worried about diet based diseases such as heart disease and diabetes which can cause death if left untreated. Therefore: a thorough plan of entry would consider these particular traits and global trends.

**ABSTRACT**

Human Resource is a very important input in the production matrix.. Other seven inputs include materials, money, time, energy, knowledge, information and infrastructure. These inputs are transformed by the process to get the output with feedback and control. It is also an input of the Leontief's model. In this model, there are three elements, namely; inputs, transform and output, all of which need human resource to galvanize them to be productive. Management involves the design and provision of an environment within groups and organizations so that the individuals and the groups and organizations can achieve their objectives by utilizing both human and material resources. Human resource management is one of the functional areas of management. The others are finance, marketing, production, research and development and innovation. Human resource management consists of personnel management, industrial relations management and employee welfare management. So the early founders of production management are also the founders of human resource management such as Rountria, Robert Owen, and Henry Fayol. Today, most organizations prefer to use the term human resource management to designate such functions as recruitment, section, placement, induction, orientation, training and development, wage administration and motivation. Today, human resource management has become very important as a tool for organizational success. For an organization to succeed, it has to first of all breakeven, when total revenue equals total cost and even to have units produce beyond breakeven point as well as survive and still perform well. To perform well, it has to achieve its objectives and goals. It has to satisfy the demands of stakeholders and staff and the regulatory authorities. It is against this background that this study undertakes a theoretical review of human resource management as a tool for organizational success.

**KEYWORDS:** Human Resource Management, Organizational Success, Management

**INTRODUCTION**

A major contributory area to organizational success is the management of workers in organizations. Business success in a market economy is dependent on the optimal utilization of relevant resources such as the financial resources, material resources, and human resources. It is through the combination of these resources that the attainment of the goal is achieved. However the most significant and complex

component for the attainment of organizational success is the human resource.

The concept of human resource, according to Udo-Udoaka (1992: 45), refers to the managerial, scientific, engineering, technical, craft and other skills which are developed and employed in creating, designing and developing organization and in managing and operating productive and service enterprise and the economic institution. Human resource is composed of individual working for an organization, employed these days as temporary staff or contracted staff but collectively making up the most important of organizational resources. Therefore, an organization must have the right number and types of employees who must be managed in such a way that they will be able to achieve their personal and organizational objectives.

#### REVIEW OF LITERATURE

Human resource management (HRM) involves practices that ensure that employees' collective knowledge, skills, and abilities contribute to business outcomes (Huselid, Jackson, & Schuler, 1997). The traditional conceptualization of HRM focused on managing, measuring, and controlling organization's workforces. Tactical (Whitner, 1997) or technical (Huselid, et al., 1997). HRM includes selection testing, training, performance measurement and administration of benefits (Whitener, 1997). Huselid, et al (1997) have identified empirically a second dimension of HRM activities: strategic HRM, which involves employee participation and empowerment, communication, team based work design, and development of managers of the organization. Arthur (1994) identified two types of human resource systems similar to those found by Huselid et al (1997): Commitment and control. The human resource system that is based on commitment is focusing on the psychological links between organizational and employee goals. It is associated with higher involvement in managerial decision, participation, providing training and rewards. A human resource system that is based on control focuses on directly monitoring and rewarding employee behavior or the specific outcomes of that behavior (Arthur, 1994).

The theoretical literature suggests that HRM practices increase productivity by increasing employees' skills and motivation. Moreover, HRM practices contribute to business objectives through strategic innovation or technical competence. Recent empirical studies on larger companies supported the basic assumptions of HRM theory (Arthur, 1994; Huselid, 1995; Huselid et al., 1997). Does this theory apply to small-scale enterprises as well? HRM also carries costs and they might neutralize the positive effects of HRM in small-scale enterprises. HRM is an investment, and thus, it costs time and/or money. The current performance of employees may even be decreasing because of the time spent on training. Moreover, HRM can only have effects when employees stay in the company for a certain period of time. Otherwise, the company suffers a loss because of the investments in HRM. Thus, the benefits of HRM must exceed costs invested in HRM. Since small-scale enterprises have limited financial resources it is very well possible that large investments in HRM do not pay off. This paper, therefore, reviews human resource management as a tool for organizational success. It is divided into six sections. Section one is the introduction. Section two examines the perspectives of human resource management and the human resource function with section three looking at the importance of personnel and human resource management. Section four x-rays current challenges, issues and trends associated with HRM. Section five shows some results of human resource management contributions in business success while section six contains our conclusion.

#### PERSPECTIVES OF HUMAN RESOURCE MANAGEMENT AND THE HUMAN RESOURCE MANAGEMENT FUNCTION

There are numerous definitions of the term human resource management as there are many experts in the field and it is called by different names for example, in certain public enterprises it may be called personnel administration, employee relations or manpower. Human resource management is concerned

with the proper use of human factors in business. Byers and Rue (2000 :75) are of the opinion that human resource management is that part of management that is designed to provide for and coordinate the employees in the organization. Plants, equipment and all others that a modern firm uses are unproductive except for the effort and direction by human resource.

According to (Cole, 2002: 44) human resource management is that part of management which is concerned with people at work and with their relationship within an enterprises and it seeks to achieve both efficiency and justice.

Human resource management has to do with various operative functions of recruiting, maintaining and utilizing a labour force in such a way that objectives for which the company was established are attained economically and effectively. In sum, human resource management can simply be defined as an effective and efficient utilization of human element at work.

#### Human Resource Management Function

The personnel/human resource department programme of each organization is unique and personnel activities will vary some what from firm to firm yet trends clearly indicate that the scope personal responsibilities in increasing in organizations of all sizes. Personnel/Human resource management functions can be described as follows;

- Job analysis and design
- Recruitment and selection
- Appraisal Training and Development
- Compensation and wealth
- Employee relations

The human resources manager, staff and line Managers

Managing human resources effectively is the task of individuals who have specialized in it and are primarily responsible for human resource management. Human resource managers comprise staff and line managers(those in charge of the employees who are producing the products and delivering the services of the company). These two sets of managers are interdependent in the management of human resources. Increasingly, they work together. Thus, chief executive officers (C.E.O), human resource managers, and all levels of senior management will be involved in managing human resources.

Amidst other senior executives, the human resource leader will be indistinguishable from others, in concern for and understanding of the needs of the business, likewise the staff of the human resource department will appear indistinguishable from their counterparts in the firm, sharing in the human resource function, line managers, human resource staff, and non managerial employees together will forge and implement human resource activities, structure, roles, policy, goals and practices.

The Employees:- Employees are also taking a role of human resource management. For example, employees may be asked to appraise their own performance or that of their colleagues. It is no longer common for employees to write their own job description. Perhaps most significantly, employees are taking a more active role in managing their own careers, assessing their own needs and values, and designing their own jobs. Nevertheless, the human resource department must help guide this process to these ends, but must be staffed with qualified individuals.

#### ROLE OF THE HUMAN RESOURCE DEPARTMENT

## IMPORTANCE OF PERSONNEL AND HUMAN RESOURCE MANAGEMENT

Now, more than ever before, human resource management is recognised as being critical to the survival and success of organisations. In 1991, IBM and the internationally recognised consulting firm of towers Perrin jointly conducted a worldwide study of nearly three thousand senior personnel and human resource management leaders and chief executive officers. Results indicate that about seventy percent of human resource managers see the human resource function as critical to the success of organisations. By the year 2000, more than ninety percent expect the human resource department to be active while the human resource respondents here perhaps a bit more positive about this trend. The Chief executive officers were very close behind. While serving the very success of the business can certainly be regarded as an important goal of personnel and human resource management.

## EXTERNAL INFLUENCE ON HUMAN RESOURCE MANAGEMENT:

## CURRENT CHALLENGES, ISSUES AND TREND

To a large extent, the personnel department's newfound yet well deserved prestige is the result of the enormous responsibilities undertaken by personnel managers. Today, many problems and issues that have traditionally been the responsibility of the personnel department remain so. Examples are the recruitment, selection, orientation and training of high quality personnel, job analysis and job evaluation, labour relations and employee appraisal systems. Current problems and issues have created a new era of professionalism in personnel management. Some of these problems and issues are productive improvements, the quality of working life, safety and health, equal employment opportunity and the increase in computer usage

## CONCLUSION

The issue of human resource management as a tool for achievement of goals and objectives of any organisation cannot be over-emphasized. It is imperative, therefore, that for human resource managers to fully achieve the goals and objectives of any organisation, both the organisation and the employees must come to terms with regard to what would be beneficial to both. Since an organisation does not exist in vacuum, it has to employ personnel to achieve its set objectives and this is what human resources management is all about. Management involves working with and through people to

accomplish organisational goals and objectives. The head of management is concerned with systematic co-ordination of affairs. It is aimed at utilizing available resources to attain the goals and objectives of the organisation. of all resources available to the organisation, human resources enjoy primacy of position because without it, all other resources will remain idle. From this research study, it can be deduced that human resource department must be seen as a pivotal unit in facilitating competitive advantage. It is imperative that the human resource department serves as a communication link between the stakeholders, management and employees in a business organisation. It should be managed by well trained human resource managers.

For the smooth functioning of a city, voting is a fundamental right that every individual  
should exercise, irrespective of age, knowledge, or experience. From healthcare to food,  
From educational policies to jobs, from highways to taxes, elected representatives take  
crucial decisions on these vital issues that affect our lives. Hence, voting becomes  
instrumental in the development of a nation.

### 11. Outcome of the Program

Why should you vote? To make a change. To get access to education, better healthcare and childcare, fair tax policies, basic income, better roads and transport facilities, and other basic amenities. You should vote gives you the power to choose the most suitable candidate who can run the country. If you vote, you can decide who represents your city and country. If you vote, you become an essential part of the decision-making process that will surely affect your everyday life. When you vote, you get a significant way to express your opinion on the issues you are concerned about.

## Report

In our PG Department of Mathematics, we conducted an extension activity on March 1, 2024, on voter awareness at Paganatham. Students gave wonderful awareness to the people. They felt very proud to raise awareness among the people. Our students gave pamphlets to the people to raise awareness. We have conducted more programs by our students, like dance, singing, and enacting drama, to raise voter awareness among the people.

This program provides information about voting and how to be a responsible voter. A lot of People want to vote, but many are not aware of its need or how to cast it. This idea of voting awareness is to help people understand the importance of voting. Our students motivated the citizens to express what they want from their leaders by raising Awareness about voting. This program will lead to better governance, which is what everyone wants. a democracy that is free, fair, and representative.

Our students played a pivotal role in that extension activity. They gave a lot of advice to the people on how to cast their vote safely. They point out that no one should sell their votes. Our students have created intellectual citizens through this wonderful program.

### About Siva:

- 12 Year of Experience in Academia
- Founder of Atlas Academic Advisory Pvt., Ltd.,
- Expertise in IPR especially in Patent filing

### Awards

1. I have been selected as a "Most Promising Educators in Higher Education across India 2019" by uLeKtz wall of Fame.
2. I have been selected for "Maximum Patents filed in the Year 2019" in India Book of Records 2021 Edition.
3. I have been selected for "Young Personality of the Year Award (Below 40 Years) at 2nd International Academic and Research Excellence Awards (IARE) 2020 by GISR Foundation.

### Resource Person

1. Conducted a One Day Online Webinar "IPR Awareness program" as a Resource Person Collaborated with Keyway Consultancy, pvt Ltd on 13-05-2020, on YouTube Live .Total Number of Participants around 2000. [\[View\]](#)
2. Conducted a One Day Online Webinar "Patent Drafting and Claiming Analysis" as a Resource Person Collaborated with SV Group of Institutions, Tirupati, on 26-05-2020, on Google Meet & YouTube Live .Total Number of Participants around 1000. [\[View\]](#)
3. Conducted a One Day Online Webinar "IP Strategy and Patent Protection" as a Resource Person Collaborated with SNS College of Engineering, Coimbatore, Tamilnadu on 30-05-2020, on Google Meet & YouTube Live .Total Number of Participants around 500 [\[View\]](#)
4. Conducted a One Day Online Webinar "Introduction and Basics of IPR " as a Resource Person Collaborated with AVNIET, Hyderabad, on 04-06-2020, on WebEx & YouTube Live Total Number of Participants around 500. [\[View\]](#)
5. Conducted a One Day Online Webinar "Patent Prosecution" as a Resource Person Collaborated with SNS College of Technology on 06-06-2020, on Google Meet & YouTube Live .Total Number of Participants around 500. [\[View\]](#)
6. Conducted a One Day Online Webinar "Patenting Your Innovations" as a Resource Person Collaborated with St. Peter's Engineering College on 16-06-2020, on Google Meet .Total Number of Participants around 1000.

7. Conducted a One Day Online Webinar "How to be a Patent Holder" as a Resource Person Collaborated with Dev Bhoomi Group of Institutions, Dehradun on 18-06-2020, on Zoom. Total Number of Participants around 300.
8. Conducted a One Day Online Webinar "Intellectual Property Rights" as a Resource Person Collaborated with SV Engineering College on 20-06-2020, Sponsored by MHRD Innovation Cell, Govt of India, Delhi, on Google Meet & Total Number of Participants around 300.
9. Conducted a One Day Online Webinar "Introduction to IPR" as a Resource Person Collaborated with KL UNIVERSITY, Vijayawada on 20-08-2020, Sponsored by MHRD Innovation Cell, Govt of India, Delhi, on Google Meet & Total Number of Participants around 1000.
10. Conducted a One Day Online Webinar "IPR Drafting and Claims" as a Resource Person Collaborated with Geethanjali College of Engineering and Technology on 20-10-2020, Total Number of Participants around 200.
11. Workshop on "Design thinking, Critical thinking and Innovation Design" Organized by the Department of Information Technology, Vel Tech Multi Tech Dr. Rangarajan Dr. Sakunthala Engineering College, Chennai Date: 10.02.2022
12. Department of CSE, KGR CET, Hyderabad has served as guest lecture on "Intellectual Property Rights", organized by the School of Computing and Information Technology, REVA University, Bangalore on 14.02.2022.
13. A National Level Webinar on "Intellectual Property Rights", Department of Computer Science and Engineering and Institute Innovation Council (IIC), Sri Viswa Engineering College for Women (A), Bhimavaram, on 26, February 2022 as Resource Person

#### International Patent

1. WIPO PATENT "System and Method for Agricultural grievance Management" have been filed as a first Applicant and Inventor in the PCT/IB2020/050007 on 02-01-2020.
2. An Artificial Intelligence based System for Breast Cancer Detection. Germany Patent No. 202022100092. 2022
3. An Intelligence System for Weather Monitoring and Natural Disasters Prevention Using IoT and ML. Germany Patent No. 202022100460. 2022

#### National Patent

1. PATENT "System and Method for Agricultural grievance Management" have been published as a first applicant in the Indian Patent Office (IPO), Ref No 201941001387, 2019.
2. PATENT "System and Method for Mapping entities securely" have been published as a first applicant in the Indian Patent Office (IPO), Ref No 201941010264, Mar 2019.
3. PATENT "Sensitive Information Management System and method Thereof" have been published as a Inventor in the Indian Patent Office (IPO), Ref No 201941019479, May 2019.
4. PATENT "Access Network Selection System, Device and Method for Reducing Specific Absorption Values for Cell Phones" have been published as an Applicant in the Indian Patent Office (IPO), Ref No 201941026048, and July 2019.
5. PATENT "System and Method for Detecting Presence of an Intruder near a Neon CRIB" Have been published as an Applicant in the Indian Patent Office (IPO), Ref No 201941028405, and July 2019.

### Research Areas of Interest

- Network Security
- Cryptography, Steganography and Watermarking
- Cloud Computing, Big Data

## IPR REPORT

On July 20, 2023, a national webinar on the introduction to IPR was conducted. Ms. Preethi, Assistant Professor, Department of Chemistry, delivered the welcome address. Ms. Priyadharshini, Assistant Professor, Department of Physics, introduced the resource person, Dr. S. Siva Shankar, M.Tech., Ph.D., MISTE, MIAENG., MCSTA., MEAL., MIRED., an expert in IPR. The objective of the webinar was to raise awareness of IPR and encourage faculties and students to use IPR tools for protection and enforcement of their rights. The webinar highlighted the role and rising importance of intellectual property rights in a competitive and globalized economy. It stressed the importance of various attributes of intellectual property, including copyrights, industrial designs, patents, trademarks, internet domain names, semiconductor layout designs, and the aspects of the regulatory framework associated with them. The seminar further laid stress on mechanisms for protection of intellectual property rights, an overview of the Indian Intellectual Property Rights Acts, support through grants for innovations, and commercial aspects of IPRs. Later, queries were asked by the participants to the resource person, and the program came to an end with a shanti mantra.

## Report

In our PG Department of Mathematics, we conducted an extension activity on March 1, 2024, on voter awareness at Paganatham. Students gave wonderful awareness to the people. They felt very proud to raise awareness among the people. Our students gave pamphlets to the people to raise awareness. We have conducted more programs by our students, like dance, singing, and enacting drama, to raise voter awareness among the people.

This program provides information about voting and how to be a responsible voter. A lot of People want to vote, but many are not aware of its need or how to cast it. This idea of voting awareness is to help people understand the importance of voting. Our students motivated the citizens to express what they want from their leaders by raising Awareness about voting. This program will lead to better governance, which is what everyone wants. a democracy that is free, fair, and representative.

Our students played a pivotal role in that extension activity. They gave a lot of advice to the people on how to cast their vote safely. They point out that no one should sell their votes. Our students have created intellectual citizens through this wonderful program.

### REPORT (2023-2024)

On behalf of the EXNORA CLUB, I request your permission to organize a visit to a sustainable farm for our club members on [26.12.2023] at Thennilai. This visit aims to provide students with practical exposure to sustainable farming practices and their environmental benefits. We believe it will be an educational and enriching experience.

We have made arrangements for transportation and will ensure proper supervision throughout the visit. We kindly request your approval for this educational excursion.

On behalf of the Exnora Club, we have conducted a sustainable farm visit on (20.12.2023) at Thennilai surrounding. The main motif of this visit is to provide students with practical exposure to sustainable farming.

We reached that place sharply at 11 a.m., and we started our visit. We took more than 100 students for that sustainable visit. It was a nice experience for them to learn about the importance of nature and farming.

Our students had an enriching experience through this visit. Our students visited lots of plants and farms during this visit. One of the students spoke about the importance of nature as well as the importance of farming in that marvellous visit.

We also learned a lot about the herbal plants along with our students. Our Students would be guided by a wonderful guide. Our students had a wonderful experience during this visit. Our students played a pivotal role. in their visit. They were interested in the farm visit. We have completed our sustainable farm visit at 1.00 PM.

## REPORT

The Tamil Nadu Government of Police Department organized an awareness program on "Basic Traffic Rules" at Sri Sarada Niketan College of Science for Women at Kodangipatty. Nearly 70 students participated in this event. Our college students gave basic traffic rules awareness to wearing a helmet for two-wheelers and seat belts for those who drive four-wheelers and to following traffic rules. Our students have been fully energetic and enthusiastic throughout this program. While people are breaking the rules, unfortunately, we are suffering accidents. Hence, awareness of basic traffic awareness is important.

### राष्ट्रीय एकता दिवस शपथ

मैं सत्यनिष्ठा से शपथ लेता हूँ कि मैं राष्ट्र की एकता, अखंडता और सुरक्षा को बनाए रखने के लिए स्वयं को समर्पित करूँगा और अपने देशवासियों के बीच यह संदेश फैलाने का भी भरसक प्रयत्न करूँगा। मैं यह शपथ अपने देश की एकता की भावना से ले रहा हूँ जिसे सरदार वल्लभभाई पटेल की दूरदर्शिता एवं कार्यों द्वारा संभव बनाया जा सका। मैं अपने देश की आंतरिक सुरक्षा सुनिश्चित करने के लिए अपना योगदान करने का भी सत्यनिष्ठा से संकल्प करता हूँ।

### RASHTRIYA EKTA DIWAS PLEDGE

I solemnly pledge that I dedicate myself to preserve the unity, integrity and security of the nation and also strive hard to spread this message among my fellow countrymen. I take this pledge in the spirit of unification of my country which was made possible by the vision and actions of Sardar Vallabhbhai Patel. I also solemnly resolve to make my own contribution to ensure internal security of my country.

## REPORT

The extension activity on computer basics for school students aimed to enhance their understanding and proficiency in the fundamentals of computer concepts.

The program targeted students from grades 6 to 8, providing them with hands-on experience and theoretical knowledge. We conducted interactive lectures to introduce students to computer hardware and software applications.

We organized practical sessions where students had the opportunity to work on a computer using paint. Students gained a better understanding of computer hardware and software applications. Students developed practical skills using software applications such as paint, MS Word, and MS Excel.

Feedback from students and school teachers was overwhelmingly positive, with many expressing appreciation of the practical session of the program.

6. Chief Guest Arranged By : **Dr.N.Nagadeepa,Principal.**
7. Program Coordinator : **Mrs.S.Jayabharathi Priya,**  
Assistant Professor of Computer Science.
8. Program Organizing Committee : Busy Bee Association
9. Program Conducted by : Department of Computer Science
10. Number of Participants : 150
11. Description about the Program : AlloT merge AI's ability to mimic human intelligence with IoT's connected infrastructure. It allows data to be analyzed and understood rather than simply collected and transferred.
12. Outcome of the Program : Connecting AI with smart sensors of buildings enhances safety by reducing fire and flooding risks. Also, connecting AI agents with IoT devices optimizes energy efficiency and lowers operational costs

## REPORT:

On February 2, 2024, an International Conference on AI-Powered IoT for Intelligent Systems and Smart Applications was conducted by the Department of Computer Science. The sessions were taken by Dr. Rajassekaran Selvaraju, Professor, Department of Information Technology, College of Computing and Information Sciences, University of Technology and Applied Sciences, Ibri, Al Dhahira, Sultanate of Oman; Dr. Rajesh Kanna, Assistant Professor, Department of Computer Science, Christ (Deemed to be University), Hosur Road, Bangalore; and Dr. AKILASHRI P. S. S., Head and Associate Professor, Department of Computer Science, National College, Trichy, under the title Overview of AI-Driven Sensor Networks. In those sessions, they explained how to gain insights into the development of predictive models, their applications in various industries, and the challenges associated with ensuring accuracy and reliability. They also thoroughly explained the various benefits of AI-powered IoT. They afforded many examples, and then students were clear and understood various aspects of artificial intelligence in the Internet of Things, which provides a wide range of advantages for businesses and consumers, including proactive intervention and intelligent automation. The sessions were very interactive. Students had asked many questions to resource persons to gain knowledge about AI-driven solutions. The outcome of the feedback from the students and faculty members was considered successful.

 Time: 10.00AM – 3.30 PM

Sri Sarada Nisaran College of Science for women, Katur, was founded in 1987 to cater to the educational needs of the women of Tamilnadu. It is a Self-financing College affiliated to Bharathidasan University. Character building and culture inculcation are the basis upon which the Super structure of modern education is raised here. The education vision and mission of the college are reflected in the motto of the college "The Harmonious Development of the Hand, the Heart and the Head". The college is accredited by AICTE. Accredited with B Grade by NAAC. Institution recognized under Sections 2(F) and 12(B) of UGC.

**ABOUT THE DEPARTMENTS**

The departments established its B.Sc., and M.Sc., courses on various streams since the year 1987 with a sanctioned strength of 60. Physics and Mathematics are the allied subjects for B.Sc., Chemistry, and Chemistry is offered as an allied subject for Physics and Mathematics. The related disciplines of microbiology are biochemistry, biostatistics, and bioinformatics. They were one of the college's prospective departments. The departments were equipped with large laboratories and instruments to help budding scholars practice their craft effectively. The objective of certificate programs like making soap and detergent was to motivate and develop the next generation of trade proprietors. Mathematics undergrads were offered certificate courses like R programming, Python, and Vedic Maths makes a difference in the students to procure information in making a run of applications. Furthermore, the students are working on research projects. The departments are administered by a group of dedicated and efficient faculty members. So far, the departments have resulted in over thirty university ranks. Numerous students obtained positions as PT assistants, police officers, railway employees, and other positions last year. Every student who completed their courses at our college has found employment with the government. Our department hosts a large number of workshops and seminars led by knowledgeable resource persons.

INTERNATIONAL CONFERENCE ON

# Report

The international conference was held on February 9, 2024, at our college. This program was organized by the science department, which consists of chemistry, mathematics, physics, microbiology, and hospital administration. The program started with prayer, followed by Amba blessings.

The chief guests were honored with moments by Amba. Next, the 1st session was initiated by Dr.S.Gokulraj, M.Sc., M.Phil., Ph.D on the topic of "Interdisciplinary approaches in mathematics and science.

The next session started at 11.50 a.m. Thiru L. Sathiskumar, Research scholar, Joenbuk National University, South Korea, has given a lecture on the recent "Developments in Lead Acid on Battery Technologies with Safety Characteristics."

The next session was taken over by Dr. B. Prabha, Assistant Professor, Department of Chemistry, Karpagam Academy of Higher Education, Coimbatore, and he gave a lecture on "Heterocyclic compounds in medicinal chemistry research."

Many students from numerous colleges have participated in paper presentations and poster presentations. A certificate was distributed to the other college participants and awarded to the students for the best presentation. Finally, a photo was taken with the chief guests along with the participants.

Next, P. Jeevika, II B.Sc. Mathematics, delivered the vote of thanks. The program ended with a Shanthi mantra.

**ABOUT OUR COLLEGE**

Bri Barada Niketan College of Women, Kasur was established in 1987 to cater to the educational needs of the Women of Karnataka. It is a self-financing College affiliated to Karnataka University, Dharwad. Quality Education and Value Education are the basic aims which the College strives for. The education given at this College is reflected in the motto of the College: "The Education Development of the World We Live In". The motto of the College is "Education for All". The motto of the College is "Education for All".

**ABOUT OUR DEPARTMENT**

The Department of English empowers students to seek, to know, to serve, to train them to better understand the world through thoughtful reading, and to better express themselves through creative writing. While the department's objectives target the students and reflect our disciplines, our mission extends to the entire student body through the co-curricular programs, the courses we teach, and the Writing Center. A course in English provides an opportunity for students who major in other fields to pursue their interests in acquiring expertise in writing and literary studies.

**ABOUT THE CONFERENCE**

The aim of the National conference is to foster academic and intellectual growth by providing teachers and education staff with the latest knowledge on Soft Skills, Research Skills, Classroom Management Skills, Effective Teaching Strategies, Knowledge and how to complete them in the education programmes.

**Topic Areas:**

- Research Skills: New research and practice about classroom management.
- Classroom Management: Reflections and Reviews of various Teaching practices.
- Writing Approach: How to enhance the Right Communication for Collaborative Learning.
- Classroom Climate: Significance of Learning, Teaching, Reading and Writing.
- Professional Skills: The role of soft language and interview skills.

**CONFERENCE REPORT (2023-2024)**

The Department of English conducted a Multidisciplinary Conference on Soft Skills, Research Skills and Classroom management skills for Effective Teaching on 28.02.2024. We invited Dr. Monika, Dr. K. Indhirani, Dr. P. Shanthy and Dr. P. Saravanan as our chief guests. Our students welcomed our chief guests and dignitaries of our college with the memento and gifts. The main objective of our conference is to give awareness about the importance of the skills for effective teaching to all of our students. Students from various Institutions arrived at our conference and gained lots of knowledge through our conference.

Our conference began with the prayer song at 10.30AM followed by Lighting ceremony. After that Amba showed her blessing through her energetic words. Amba's words inspired and motivated the students a lot. Presidential address was given by our principal Dr. N. Nagadeepa. She gave a speech about our conference as well as the importance of English in our everyday life.

Our students introduced the guests. Our 1st Session began at the time of 11.20AM, Dr. K. Indhirani has taken over the session where she has presented her paper on the topic of Soft Skills for Effective Teaching. Her presentation was very useful to our students. She handled the session through online mode. That session ended at 11.45 AM.

Our second session began at the time of 11.55 AM, Dr. P. Shanty has take over this session. She has presented her paper titled on Research Skills for Effective teaching. Her presentation was very useful to our students. She handled this session through online mode. This session ended at the time of 12.20 PM.

MG

Respected Madam,

Sub: Seeking permission to conduct an extension activity on The Importance of Grammar for For Effective Speaking.

In our Department of English we have planned to conduct an extension activity on Importance of English Grammar for effective speaking at Government Middle School Kodangipatti. It will definitely be useful for our students as well as the school students. This activity helps them to improve their communication skills in English without grammar mistakes.

It helps them to rectify their grammatical errors. Our students are also very much interested in giving the lecture to the students about the Importance of Grammar in English. We have planned to conduct it on (15.03.2024) at Government Middle School Kodangipatti. It will definitely be useful for our students to develop their communication skills and grammar knowledge in english. So kindly give us permission to conduct an extension activity

Thanking you

DEPARTMENT OF ENGLISH  
EXTENSION ACTIVITY REPORT (2023-2024)**

In our department of English we conducted an extension activity on (15.03.2024) on Importance of English Grammar for effective speaking at Government Middle School Kodangipatti. Students gave wonderful teaching to the students.

It will definitely be useful for our students as well as the school students. This activity helps them to improve their communication skills in English without grammar mistakes.

It helps them to rectify their grammatical errors. Our students are also very much interested in giving the lecture to the students about the Importance of Grammar in English. It will definitely be useful for our students to develop their communication skills and grammar knowledge in english.

Our students had played a pivotal role in that extension activity. They gave wonderful teaching to the students. They got so much knowledge from our students through this programme. Our students asked more questions related to English grammar. Our students also got a good experience through this programme.

Our students got some knowledge and they learned how to handle the school students and how to teach them. They taught english grammar topics like Tenses, Sentence Pattern, Figures of speech and Active Voice and Passive Voice. It was definitely useful to our students as well as to the school students. They learned English grammar through this wonderful programme from our students.

### राष्ट्रीय एकता दिवस शपथ

मैं सत्यनिष्ठा से शपथ लेता हूँ कि मैं राष्ट्र की एकता, अखंडता और सुरक्षा को बनाए रखने के लिए स्वयं को समर्पित करूँगा और अपने देशवासियों के बीच यह संदेश फैलाने का भी भरसक प्रयत्न करूँगा। मैं यह शपथ अपने देश की एकता की भावना से ले रहा हूँ जिसे सरदार वल्लभभाई पटेल की दूरदर्शिता एवं कार्यों द्वारा संभव बनाया जा सका। मैं अपने देश की आंतरिक सुरक्षा सुनिश्चित करने के लिए अपना योगदान करने का भी सत्यनिष्ठा से संकल्प करता हूँ।

### RASHTRIYA EKTA DIWAS PLEDGE

I solemnly pledge that I dedicate myself to preserve the unity, integrity and security of the nation and also strive hard to spread this message among my fellow countrymen. I take this pledge in the spirit of unification of my country which was made possible by the vision and actions of Sardar Vallabhbhai Patel. I also solemnly resolve to make my own contribution to ensure internal security of my country.

### ABSTRACT

The paper titled HUMAN RESOURCE MANAGEMENT SYSTEM is basically concerned with managing the Administrator of HUMAN RESOURCE Department in a company. A Human Resource Management System, refers to the systems and processes at the intersection between human resource management and information technology. It merges HRM as a discipline and in particular its basic HR activities and processes with the information technology field, whereas the programming of data processing systems evolved into standardized routines and packages of enterprise resource planning software. The main objective of this paper is to reduce the effort of Administrator to keep the daily events such as attendance, projects, works, appointments, etc. This paper deals with the process of identifying the employees, recording their attendance hourly and calculating their effective payable hours or days. This paper should maintain the records of each and every employee and their time spend in to company, which can be used for performance appraisal. Based on that transfer, removal, promotion can be done.

**KEYWORDS:** Discipline, Standardized, Grievances, Laying off, Sustainability.

### INTRODUCTION:

Human resource management is the strategic approach to nurturing and supporting employees and ensuring a positive workplace environment. Its functions vary across different businesses and industries, but typically include recruitment, compensation and benefits, training and development, and employee relations. The term human resources was first used in the early 1900s, and then more widely in the 1960s, to describe the people who work for the organization, in aggregate. In the past, its role was quite limited. Within any company or organization, HRM is a formal way of managing people. It is a fundamental part of any organization and its management.

### OBJECTIVES OF HUMAN RESOURCE MANAGEMENT

1. **Societal objectives:** Measures put into place that responds to the ethical and social needs or challenges of the company and its employees. This includes legal issues such as equal opportunity and equal pay for equal work.
2. **Organizational objectives:** Actions taken that help to ensure the efficiency of the organization. This includes providing training, hiring the right number of employees for a given task or maintaining high employee retention rates.
3. **Functional objectives:** Guidelines used to keep HR functioning properly within the organization as a whole. This includes making sure that all of HR's resources are being allocated to their full potential.

4. **Personal objectives:** Resources used to support the personal goals of each employee includes offering the opportunity for education or career development as well as maintaining employee satisfaction.

#### **FUNCTIONS OF HRM:**

##### **Job analysis:**

Determining the skills and experience necessary to perform a job well may make it easier to hire the right people, determine appropriate compensation and create training programs.

##### **Workforce operations:**

Creating health and safety policies, responding to employee grievances, working with labor unions, etc., can help support regulatory compliance.

##### **Performance measurement:**

Evaluating performance is important because it not only fosters employee growth through constructive feedback, but also serves as a guide for raises, promotions and dismissals.

##### **Incentive programs:**

Recognizing achievements and rewarding high performers with bonuses and other perks is a proven way of motivating employees to take ownership of business objectives.

##### **Professional development:**

From orientation to advanced educational programs, employee training serves to improve productivity, reduce turnover and minimize supervisory needs.

#### **IMPORTANCE OF HUMAN RESOURCE MANAGEMENT IN ORGANIZATION:**

##### **Maximizing Productivity and Profitability:**

It really focuses on both the quality and quantity of employees, as it provides them with opportunities to grow in their respective domains. As a result of these opportunities, employees are highly motivated and meet the established goals. Hence, it allows the organization to capitalize, create a presence in the market, and enhance profitability.

##### **High Quality of Work:**

A positive work environment, employee recognition, and a sense of responsibility motivate employees to give their best, which makes sure to yield a high quality of work as it helps to achieve set goals. Also, hiring the right people and making sure to train them well is important for getting the best quality work. This is crucial, as it helps the employees learn and quickly adapt to the organization's working culture.

##### **Helping employees achieve the set goals:**

Human resource management is important in achieving the set goals, as companies provide compensation, benefits, and rewards to recognize their employees. These activities help motivate employees to give their best. It also improves employee morale and gives employees new energy to perform better.

##### **Improving Teamwork:**

HR managers need to make sure every employee feels important and worthy in every department. They emphasize the importance of HRM in teamwork and team spirit in the workplace. So, that it will make a great contributions to get the desired results. Moreover, AI tools with GPT-4 powers, like the ones featured at AI tools with GPT-4 powers, are revolutionizing the way businesses interact. Also, the automate tasks, further enhancing the teamwork.

##### **Reducing the gap between demand and supply of Human resources:**

The role of HR management in an organization extends beyond personnel management. So, to include determining the sufficiency of the pool of available human resources. HR managers organize hiring and

selection campaigns to fill any employment gaps that may exist within the company. Similar to laying off ineffective employees, human resource management is responsible for this.

#### **Building a corporate image:**

For businesses, sustainability involves preserving their storied, ideal reputation in the marketplace. Everyone wants to be associated with a business that is well-known for its ethical behavior. Also, which offers commitment to the community and its employees. Contrarily, businesses that treat their employees more like resources than as people are in danger of failing completely.

#### **HUMAN RESOURCE MANAGER (HR):**

A human resources (HR) manager is someone who oversees the administrative and organizational functions of a company or business. The manager usually heads the HR department, and they play an important role as a bridge between management and employees.

#### **RESPONSIBILITIES OF HR MANAGER:**

- Developing and implementing the HR strategies and initiatives designed for the overall business plan.
- Coordinating and supervising the work of the HR team.
- Communicating with other department heads to know about their staff and training requirements.
- Designing job descriptions and revising them periodically.
- Heading recruitment, interviews, hiring and training procedures.
- Handling the exit interviews to examine the shortcomings of both the employee and the organisation.
- Creating, maintaining, and revisiting company policies and employment laws.
- Most important, working on maintaining a positive and open work environment.

#### **SKILLS OF HR MANAGER:**

**Communication And Problem-Solving Skills-**Employees and other HR executives often reach out to HR managers, for their different functional and operational concerns. Thus, a human resource manager must have effective communication and problem-solving skills, to build an effective workplace environment.

**Leadership Skills-** The HR professional leads different teams to ensure the completion of diverse tasks and responsibilities within the organisation. Thus, they need to have excellent leadership skills. Learn more about **what leadership is** and its role in the HR Manager's career.

**Technical Skills-** The knowledge of emerging technologies and trends help the HR managers streamline the different processes for growing productivity.

**Organisational Skills-** Being a human resource manager, one must juggle a wide range of responsibilities. They assure all departments meet the decided deadlines and for an effective outcome.

**Time Management Skills-** The capability to address multiple projects at a time demands excellent time management skills.

#### **RECENT TRENDS IN HUMAN RESOURCE MANAGEMENT:**

##### **1. A hybrid structure:**

The personnel groups relocated when work-from-home became a routine, leaving all the teams and companies to disband from one particular geographical location to anywhere in the nation. Hybrid work culture is also a natural first step today for a business to expand in foreign markets too. The hybrid culture automatically opens the door for new opportunities for growth and earnings. Over the past few years, expanding through foreign markets has become easier and more affordable due to the rise in hybrid culture.

**ABSTRACT**

The Goods and Services Tax (GST), implemented on July 1, 2017, is regarded as a major taxation reform till date implemented in India since independence in 1947. GST was planned to be implemented in April 2010, but was postponed due to political issues and conflicting interest of stakeholders. The primary objective behind development of GST is to subsume all sorts of indirect taxes in India like Central Excise Tax, VAT/Sales Tax, Service tax, etc. and implement one taxation system in India. The GST based taxation system brings more transparency in taxation system and increases GDP rate from 1% to 2% and reduces tax theft and corruption in country. The paper highlighted the background of the taxation system, the GST concept along with significant working, comparison of Indian GST taxation system rates with other world economies, and also presented in-depth coverage regarding advantages to various sectors of the Indian economy after lavishing GST and outlined some challenges of GST implementation.

**KEY WORDS :** Goods and Services Tax, GDP, Tax structure, Tariffs, Economic reforms.,

**INTRODUCTION:**

GST is a tax structure which is effectively settled in numerous nations all around the world and presently it is a piece of Indian Economy. It was presented around a decade prior yet got deferred because of governmental issues between administering party and opposition. At last, GST became effective at 12 PM on 1 July 2017 by the president of India through the execution of constitutional amendment. It is considered as the greatest taxation change in Indian Economy. India is presently the fifth biggest economy on the planet according to IMF & is viewed as one of the world's quickest developing economies.

A value added tax that will replace all other indirect taxes is GST. GST will boost the GDP gradually. It will also enhance the level of India in both domestic and international market. It is one of the biggest economic reforms in India and can be said as a single tax which is imposed on the supply of various goods and services. It is a comprehensive, multistage destination-based tax.

#### **GST IN INDIAN ECONOMY:**

GST stands for Goods and Services tax. Before the execution of GST, there were numerous indirect taxes which the organizations and businesses needed to pay. After the implementation of GST which is one of the greatest and huge financial change. Fundamentally, the point is to give a rearranged and a tax structure which is imposed on the financial exercises and will help in expanding the productivity of the organizations. It is a comprehensive nature tax which is levied on manufacturing, selling and consuming goods and services. GST has supplanted practically every one of the roundabout taxes aside from some which states and central levy taxes. Very nearly, 160 nations across the globe have executed GST instead of indirect taxes.

GST is collected by the state, where the goods and services are consumed. This states that it is a destination-based tax. India has implanted a dual GST model i.e. both the states and central will levy taxes on goods and services. GST was finally implemented with effect from 1st July 2017. SGST is the GST collected by state.

The central GST which is collected by the Centre is called CGST. The tax applicable on interstate and import transactions is called IGST which is again collected by Centre and the tax applicable on transactions within the union territories without legislature like Daman & Diu, Chandigarh, Lakshadweep islands is called UTGST, collected by the Union territory.

#### **NEED FOR GST IN INDIA:**

The introduction of GST is one of the significant stages of economic reform in the country. GST is essentially summation of different state and local taxes into a one single tax. GST helps in decrease of twofold taxation, falling impact, issue of arranging and clearing taxes, variety of taxes and so on. GST made a more extensive tax base, rationalization of tax construction and harmonization of state and Center organization.

Before GST there were different VAT rates across the country which differs from state to state but with the introduction of GST, there is a uniform tax system across the country and the taxes are divided between the state and the central government. GST will help in reduction of tax theft and corruption in our economy.

Goods and Services tax influences each individual and business. There is some ups and downs in business areas before all else, in light of the fact that it won't show impact in instantly. Authors have concentrated on the significance of VAT in the Indian Economy and its impact on the general public. Authors have also referenced that as per specialists GST is probably going to improve the arrangement of tax collection and will support the financial advancement of India.

GST will almost eliminate cascading impact on the creation and circulation cost of goods and services. This reduced cost of goods and service leading to accelerated GDP growths without tax barriers will leads to economies of scale in manufacturing industry and reduces the supply chain cost.

GST is supposed to diminish the production cost by 15% to 20% in a large number of the items considering full info tax credit which will well affect the costs of item. GST will remove the tax distortions from the economy. A simplified tax system will attract more manufacturing investment for growth. Multiple taxes that currently exist will no longer be roadblock. This will reduce the compliances to be fulfilled as compared to present situation.

### **GST TAX SLAB:**

The study about GST provided more statistical information. It was found that there are about five slabs for the collection GST -0%, 5%, 12%, 18%, 28%. But some products like electricity, alcohol and petroleum goods are not included in GST. It can be taxed by the state government individually according to the old tax structure.

There is a 4-level tax sections as per which the tax rate is forced on different items and services. After the execution of GST, there is an adjustment of the tax structure. The taxes are forced on items, contrast as indicated by their need in everyday.

### **ZERO TAX:**

Some items enjoy zero tax rate on various goods, which are Barley, wheat, oats, kaja (other than kaja pencil stick), sanitary napkins, music books, coloring books and drawing books for children, all types of salt and human hair, hotel and lodge bill under Rs. 1000, bank charges on saving account and Jan Dhan Yojana.

### **5% Tax Rate:**

Some goods which are taxed under 5% slab are cashew nuts, aggarbati, kites, postage stamps, bio gas, insulin, matting, walking sticks, Pawan chakki atta, Braille typewriter, Braille paper, braille watches and other hearing aids, takeaway food restaurants, hotel with room tariffs less than Rs. 7500 and special flights for pilgrims.

### **12% Tax Rate:**

Some goods which are taxed under 12% slab are plastic beads, ketchups, sauces and mustard sauces, all kinds of diagnostic kits and reagents, notebooks and copies, spoons & forks, fish knives, fixed speed diesel engines, cake knives, skimmers, playing cards, carrom board and other board games, two-way radio used by military and police forces, corrective spectacles, Business class air tickets and movie tickets under Rs. 100.

### **18% Tax Rate:**

Some goods which are taxed under 18% slab are kaja pencil sticks, plastic tarpaulin, toilet cases, dental wax, school bags other than leather bags or leather composition, aluminum foil, rear tractor tyres or tyre tubes, printers other than multifunction printers, weighing machine other than electronic weighing machine, electrical transformer, static converters, CCTV, baby carriages, televisions and monitors (up to 32 inches), ball bearings and roller bearings, set up box for TV, electrical filaments, power banks of lithium-ion batteries and bamboo furniture, Movie tickets above Rs. 100, branded garments, telecom and financial services and restaurants inside hotels with bill of Rs. 7500 or above.

### **28% TAX RATE:**

Goods which are taxed under this slab are pan masala, dishwasher, weighing machine, paint, cement, hair clippers, motorcycles, sunscreen, betting on casinos and racing, hotel stay bill above Rs. 7500, and automobiles.

### **EFFECT OF GST ON GROWTH OF ECONOMY:**

Mainly three components of society are affected by the change in tax rates of goods and service, namely: Consumer, Producer and Country. To explain the effect of this shift in tax here are some examples explained below.

The effect on restaurant industry which has shifted its tax rate from 18% to 5%. Tax distribution of restaurant charges after GST shows that the tax charged from the consumers has decreased as compared to pre-GST tax scheme. Prior all the restaurants used to charge 18% but now the tax charged on all restaurants is 5%.

### **CONCLUSION:**

The implementation of GST has given a positive notion in 150 countries across the world and it will

give a positive impact on the Indian service sector. It will increase the GDP undoubtedly but it will take some years to show the effect because economic growth may not jump immediately, but its beneficial for the economy of the country. So, we can conclude by stating that the execution of GST will give relief to the producers and consumers by giving them input tax credit setoff. Good and services tax likely bring balance to government empowerment. The malicious activity of not paying the tax will go away under this regime so that both Government, as well as consumers, can take profit. This helps the Indian economy to become stronger and more stable. With the reduction in tax rates on various goods and services, the cost of various goods and services has been reduced. Thus, making the products affordable, and this has led to an increase in demand, which in turn would increase in production and hence will make the economy grow faster. Also, by placing the demerit goods in the highest tax slab, 28% GST council has focused on discouraging the consumption of such sin goods so as to make India a better place to live.

### ABSTRACT

Banking is the backbone of every industry and technology plays an important role in every industry. The role of technology is increasing very rapidly day by day, which is also promoting the banking industry. Banking is one of the largest financial institutions which regularly explore the opportunity of technology to provide better customer services. Over the years, banking has transcended from a traditional brick-and mortar model of customers queuing for services in the banks to modern day banking where banks can be reached at any point for their services. In today's business, technology has been the largest indicators of growth and competitiveness. The banking industry today is in the industry of its revolution. Information technology has basically been used under two different avenues in banking. One is communication and connectivity and other is business process. Today, banks have welcomed wireless and mobile technology into their boardroom to offer their customers the freedom to pay bills, planning payments while stuck in traffic jams, to receive updates on the various marketing efforts while present at a party to provide more personal and intimate relationships. This paper examines consumer adoption of a new electronic payment service as mobile banking and the positive and negative factors influencing the adoption of mobile banking in India.

**KEYWORDS:** Mobile banking, Internet Banking, Technology Adoption, Mobile Payments.

### INTRODUCTION

Mobile banking is a quite popular banking system in the world. Many banks are started to provide the mobile banking services. It is an electronic banking that uses mobile phone technology or other wireless devices to deliver electronic financial services to customers. Mobile banking services form an important innovation in the banking sector and it has the potential in the market. It is because mobile banking brings lots of benefits to customers compared to traditional banking.

Mobile banking is fast, convenient and time-effective. It also provide 24 hour service availability, location free access and service access speed represent concrete attributes of electronic channels whereas concepts like time savings and easiness-to-use represent more the benefits or consequences deriving from the use situation.

### CUSTOMER SATISFACTION

Satisfaction is the customer's fulfillment response. It is a judgment that a product or a service feature, or the product or service itself, provides a pleasurable level of consumption - related, fulfillment. In minimal technical terms, this definition can be translated to mean that satisfaction is the customers

evaluation of a product or service in It is also important to recognize that, to measure the customer satisfaction at a particular point of time as if it were static, satisfaction is a dynamic, moving target that may evolve over the time, influenced by a variety of factors. Particularly when product usage or the service experience takes place over the time, satisfaction may be highly variable depending on which point the usage or experience cycle is focused on.

#### **STATEMENT OF THE PROBLEM**

This research explores and examines the important elements that will affect the customers to use the mobile banking. It is because bankers should understand the needs of the customers so that they can improve the inadequate and insufficient of the services. This also can increase the customers' usage intention of mobile banking services. By using mobile banking, some of the problem might occur. Some customers will think that mobile banking is difficult to utilize and it's complicated. Mobile banking services might make the customers difficult to use because it is a new technology service. Some customers also will think that the mobile banking is not secure and they will meet risk. They will worry that hacker will forgery their information and takes out their money without notify the customers. They will also doubt that their money is still in their account or not

The study area is restricted to only Karur town. The user can be attracted towards the mobile banking because of the facility like ease to use, usefulness and convenience to the users. The response does not fully reflect the mind-set of the user towards the mobile banking, as they may feel shy in answering the question asked directly.

#### **LIMITATION OF THE STUDY**

1. This study is confined to pros and cons of the Mobile Banking services.
2. This study is limited to areas of Karur town only.

#### **REVIEW OF LITERATURE**

**Avinandan M., Prithwiraj N., (2003)**"A model of trust in online relationship banking" observed that shared value is most critical to developing trust as well as relationship commitment. Communication has a moderate influence on trust, while opportunistic behaviour has significant negative effect. Also finds higher perceived trust to enhance significantly customer's commitment in online banking transaction. An important contribution concerns how trust is developed and sustained over different levels of customer relationship in online banking.

**Suoranta M., Mattila M. (2004)**, "Mobile banking and consumer behaviour: New insights into the diffusion pattern" concluded that an indication of the characteristics of potential subsequent adopters of mobile banking and of differences between user segments and also the authors are able to comment on the influence of certain demographic characteristics and the preferred communication mode of customers on the adoption and future usage of mobile banking services.

**Sylvie L., Xiaoyan L., (2005)**"Consumers attitudes towards online and mobile banking in China", the results showed the issue of security was found to be the most important factor that motivated Chinese consumer adoption of online banking. Main barriers to online banking were the perception of risks, computer and technological skills and Chinese traditional cash-carry banking culture. The barriers to mobile banking adoption were lack of awareness and understanding of the benefits provided by mobile banking.

**Traynor P., Amrutkar C., Rao V., Jaeger T., McDaniel P., Porta T.L. (2011)**, "From mobile phones to responsible devices" highlighted that Mobile phones have evolved from simple voice terminals into highly-capable, general-purpose computing platforms. Through such vectors, mobile phones introduce a variety of new threats to their own applications and the telecommunications infrastructure itself.

**Yang A. S., (2009)**, "Exploring adoption difficulties in mobile banking services" showed that factors associated with adopting and resisting mobile banking technologies were investigated among university students in Taiwan. Adoption factors included the belief that mobile banking helps fulfill personal banking needs, provides location-free conveniences, and is cost effective. The primary factors associated with resistance included concerns over system configuration security and basic fees for mobile banking web connections.

**Chnadra Abha and Sharma. V. (2010)**. The results of this study showed that banks have posted least number of privacy policies. The interactive sites collected more personal information than sites that were not interactive. The analysis shows that new private banks and foreign banks have posted maximum number of privacy policies (63%) on their websites.

**Dar Nouman Anwar (2011)**. Electronic distribution channels provide alternatives for faster delivery of Banking services to a wider scope of customers. But despite all the opportunities and benefits created by the m-Banking, there are still many challenges that are present in the financial sector. There are also some limitations of M-BANKING as it requires awareness, knowledge and skills to operate it.

**Dixit and Datta (2010)**. An empirical study by Dixit and Datta stated that many factors like security & privacy, trust, innovativeness, familiarity, awareness level increase the acceptance of M-BANKING services among Indian customers. The result also showed that in spite of their security and privacy concern, adult customers are willing to adopt online Banking if banks provide them necessary guidance.

**Dr. ParulDeshwal (2015)** in his article entitled, "A Study of Mobile Banking in India" explains that the mobile banking concept in India. This article examines that the consumer adoption of a new electronic payment service as mobile banking and the positive and negative factors influencing the adoption of mobile banking in India. It reveals that the origin history of mobile banking in India. This study is based on exploratory research. This research is both quantitative and qualitative. The data have been grouped into two main categories - primary and secondary data. This study analyse that the basic concept of Mobile Banking, Challenges comes in front of users while adopting Mobile Banking, the positive and negative factors of Mobile Banking and the various purpose of using Mobile Banking. Perceived cost is also an important factor; therefore, this study suggests that the creative promotional and pricing strategies, including cost reduction should be implemented to attract more priceconscious customers. It is also found that customers will adopt mobile banking if they find it easy to use and understand.

**RahmathSafeena, Hema Date, Abdullah Kammani, and NisarHundewale (2012)** in their article entitled, "Technology Adoption and Indian Consumers: Study on Mobile Banking" elucidates that the technology adoption in mobile banking services based on the opinion of Indian consumers. This study determines the consumer's perspective on mobile banking adoption. This study considers the four factors perceived usefulness, perceived ease of use, consumer awareness about mobile banking and perceived risks associated with mobile banking. This study aims at examining the impact of perceived usefulness, perceived ease of use, consumer awareness on mobile banking and perceived risk on the acceptance of mobile banking by the consumers. The key intention of this paper is to evaluate those

factors that manipulate the nature of customers towards mobile banking and their growing tendency towards the online financial institutions. A survey instrument in the form of questionnaire was developed through data collected from previous studies on acceptance of mobile banking. Likert scale is used in order to identify the respondents' perceptions towards mobile banking adoption. This study concludes that bank customers are likely to adopt mobile banking when it is easy to use.

**Renju Chandran (2014)** in his article entitled, "Pros and Cons of Mobile Banking" analysed the benefits and problems of mobile banking. This is a conceptual paper which is based on secondary data. This study analyses that the pros, cons and future of benefits in India. The study is mainly descriptive in nature. Secondary data are used for the purpose of the study. The recent trend of mobile banking statistical report is to be analysed in this study with the source of RBI website. This study concludes that the banking apps can make bill paying and bank account management incredibly convenient, but the risk of identity theft is a major downside. Fortunately, it's easy to avoid most of the pitfalls with commonsense solutions like strong password protection and secure connections. By keeping these security tips in mind consumers can enjoy a safer mobile banking experience.

#### **DEFINITION OF M-BANKING:-**

M- Banking can be defined as a channel whereby the customer interacts with a bank via a mobile device, such as a mobile phone or personal digital assistant (PDA). The emphasis is on data communication, and in its strictest form m-banking does not include telephone banking, either in its traditional form of voice dial-up, or through the form of dial-up to a service based on touch tone phones.

#### **MOBILE BANKING**

In the simplest form, mobile banking services enable users to receive information on their account balances via SMS. Some new software were updated in mobile phones in order to make transfer funds between accounts, stock trading, and confirmation of direct payments through the mobile phone's micro browser. Mobile financial services in these smart phones have been introduced by quite a few European banks and were made successful. Banks are one of the key players that want to preserve their position in the financial market as the provider of banking services and central payment. Banks help customer's to go on with transactions through mobile phone with the help of technologies like WAP, SMS etc. This made banks to merge internet and telephone and leverage it to cut costs and at the same time provide convenient to its customers. Mobile devices such as mobile phones, PDAs, wireless tablets and any devices connected to mobile telecommunication network make it possible for payments to be made. The positive reception of mobile payments will make possible new and unforeseen ways of convenience and commerce. Mobile payments can become a complement to cash, cheques, credit cards and debit cards. Account based payment instruments such as electronic funds transfer, Internet banking payments, direct debit and electronic bill payments can be paid using this service and it also includes payment of bills especially utilities and insurance premiums.

#### **MOBILE BANKING CONCEPT:**

Mobile Banking is a technique of providing facilities to a consumer to carry out banking transactions on the mobile phone through a data service-provider. Banks need to provide services to their customers whenever they require it and wherever they are. We can rather call this facility as "Anywhere and any moment banking", but it is confined to only information about an individual's account and not the cash services. Mobile banking functions through short messages. Customers have to, therefore, setup Short Message Service (SMS). They are required to activate Mobile Messaging Service (MMS) in their respective mobile phones. Mobile banking is one of the major significant passage through which the customers can be relocated from front office functions to indirect passage, in order to save their precious time as also that of the executives operating in the bank. The time saved can be effectively and efficiently utilized for business development and cost reduction. Cellular phones have achieved so much

**ABSTRACT**

Over the course of starting and operating a small business, you will need to create and present detailed reports to inform stakeholders about your business. While these stakeholders vary in that they may include investors, creditors, suppliers and even customers, they all tend to have extremely busy schedules. Writing a concise yet complete business abstract becomes extremely important, because stakeholders may never read your full report. A great abstract not only motivates readers to explore the full document, it provides them with sufficient information should they elect not to.

A common mistake in writing a business abstract is attempting to write an abstract before completing the report. Before you can write a summary, however, you must complete the work you are summarizing, whether it's a business plan, marketing plan or financial report.

### **BUSINESS IN ABROAD**

Many popular expat destinations offer lower taxes and lower costs of living compared to places like the United States. This means your money can go a lot farther if you start your business overseas. Moving to a foreign country can be an exciting opportunity, but the chance to start your own business once you're there makes it even better for entrepreneurs.

Keep in mind, not all countries offer the same opportunities and benefits. Before you make your move, do your research so you know what to expect. To get started, keep reading to learn the 5 main things you need to do to start a company as an expat.

### **FARMING AND VITICULTURE:**

If you're an expat in the Mediterranean region, farming could be a great option. The warm weather and the richness of the soil make the region exceptionally good for growing fruit, veggies or – our favourite – grapes. Wine lovers might want to get into viticulture. You could buy vineyards in France or Italy, cultivate olive trees in Spain and Greece, or dabble in citrus fruit in Cyprus.

### **REMOTE WORK:**

Working remotely online gets more popular every year. It's flexible, you can do it anywhere, and it doesn't require much startup capital – just a laptop. Ten years ago, it was all about blogging. Lots of people made money travelling the world and writing about it online. Nowadays, with social media, there are even more ways to make money. You just need to build your personal brand and nurture your inner influencer.

You could also retrain for a different kind of online work. Web development is increasingly popular. You could work as a consultant in your area of expertise. If you've got good language skills, you might want to be an online translator. The possibilities are limitless. The most important thing is to find work that you're passionate about. The information in this article is correct at the time of publishing (September 2019). It could change depending on the outcome of Brexit.

### **Cryptocurrency**

If you're an entrepreneur, or would like to become one, it's important to always be on the lookout for the next big thing. Lately, that thing has been cryptocurrency, the digital currencies that use cryptography and the blockchain to secure transactions and create new units. As of early 2022 the global cryptocurrency market is worth about \$1.8 billion. By 2028 it's expected to be worth more than \$32 billion, which means it's set for incredible annual expansion of nearly 60%.

Despite a few recent hiccups, cryptocurrency may still be the world's fastest-growing industry, and you can get in on the action with your own crypto business. Assuming you're not going to create your own cryptocurrency, which requires programming expertise, you'll need to decide whether you want to start a wallet, which is an application that helps users store and spend cryptocurrencies, or an exchange, which enables cryptocurrency trade. Another option is to become a cryptocurrency investor and broker, which will require considerable expertise regarding the fast-evolving field of cryptocurrency. If you do find a niche, this is an industry that could deliver massive returns.

### **Freight Forwarding Business:**

With many countries opening up their economies, international trade volumes are increasing again and driving growth in the freight forwarding market. In the US, freight forwarding brokerages and agencies are expected to earn more than \$150 billion in 2022. They comprise the second largest segment in the transportation industry. There's still room for new players, especially those who can offer innovative

products and services. If you're thinking of starting your own freight forwarding business, now is the time to do so.

Freight forwarding may seem like a complex business to start, but it can be a breeze with the right tools. A wise move before you launch your business is to choose the services that you will offer, whether it's customs clearance or transportation services. The permit and license requirements will depend on your choice. You also need to be knowledgeable about the legal issues. Find a good location for your facilities, but go digital to promote your business and coordinate with your clients. If you do this right, you will soon be raking in profits!

#### Online Gambling:

Make sure you do business in any of the six states that have legalized online casinos – New Jersey, Pennsylvania, Michigan, Delaware, West Virginia and Nevada. At least seven other states have introduced laws, hoping to do the same. The online gambling market was valued at more than \$2 billion in 2020 and is projected to grow 17% annually the next five years as bettors continue to migrate from offline to online gambling.

So if you're ready to take the plunge into the world of online gambling, start by choosing the software provider. There are several in the market, so you have to research each provider's pros and cons. Once you've made that choice, select your gambling content and apply for a license. You also need to establish safe and sure payment processes. Finally, develop your website and promote your business through social media and other platforms.

#### CONCLUSION:

In order to be successful in any endeavor in life in today's society, planning ahead is key. Likewise in business, strategy is key in order for survival especially when entering a market that is new and foreign, such as that of India. India is an especially fertile place for the international market due to globalization and similar factors that has modernized the country very thoroughly within the class one to two decades, though it also has a strong and vibrant history of economic trade and of commerce. Many other corporations have already entered India's market such as Sony and Nokia. Food markets have also penetrated their way into the Indian market. Good examples of recently established and new markets that are particularly food focused in India include McDonalds, Taco Bell, and Dunkin' Donuts. These brands of successfully infiltrated the Indian market and consumer base. Therefore: a food and food services corporation which is planning to start its business in India today must look past what has already been done by established food corporations such as McDonalds, Taco Bell, and Dunkin' Donuts and look at current trends such as the country's progressive and forward movement towards modernity and the concern of the local population of health food conscious consumers who are worried about diet based diseases such as heart disease and diabetes which can cause death if left untreated. Therefore: a thorough plan of entry would consider these particular traits and global trends.

### ABSTRACT

Human Resource is a very important input in the production matrix.. Other seven inputs include materials, money, time, energy, knowledge, information and infrastructure. These inputs are transformed by the process to get the output with feedback and control. It is also an input of the Leontief's model. In this model, there are three elements, namely; inputs, transform and output, all of which need human resource to galvanize them to be productive. Management involves the design and provision of an environment within groups and organizations so that the individuals and the groups and organizations can achieve their objectives by utilizing both human and material resources. Human resource management is one of the functional areas of management. The others are finance, marketing, production, research and development and innovation. Human resource management consists of personnel management, industrial relations management and employee welfare management. So the early founders of production management are also the founders of human resource management such as Rountria, Robert Owen, and Henry Fayol. Today, most organizations prefer to use the term human resource management to designate such functions as recruitment, section, placement, induction, orientation, training and development, wage administration and motivation. Today, human resource management has become very important as a tool for organizational success. For an organization to succeed, it has to first of all breakeven, when total revenue equals total cost and even to have units produce beyond breakeven point as well as survive and still perform well. To perform well, it has to achieve its objectives and goals. It has to satisfy the demands of stakeholders and staff and the regulatory authorities. It is against this background that this study undertakes a theoretical review of human resource management as a tool for organizational success.

**KEYWORDS:** Human Resource Management, Organizational Success, Management

### INTRODUCTION

A major contributory area to organizational success is the management of workers in organizations. Business success in a market economy is dependent on the optimal utilization of relevant resources such as the financial resources, material resources, and human resources. It is through the combination of these resources that the attainment of the goal is achieved. However the most significant and complex

component for the attainment of organizational success is the human resource.

The concept of human resource, according to Udo-Udoaka (1992: 45), refers to the managerial, scientific, engineering, technical, craft and other skills which are developed and employed in creating, designing and developing organization and in managing and operating productive and service enterprise and the economic institution. Human resource is composed of individual working for an organization, employed these days as temporary staff or contracted staff but collectively making up the most important of organizational resources. Therefore, an organization must have the right number and types of employees who must be managed in such a way that they will be able to achieve their personal and organizational objectives.

#### REVIEW OF LITERATURE

Human resource management (HRM) involves practices that ensure that employees' collective knowledge, skills, and abilities contribute to business outcomes (Huselid, Jackson, & Schuler, 1997). The traditional conceptualization of HRM focused on managing, measuring, and controlling organization's workforces. Tactical (Whitner, 1997) or technical (Huselid, et al., 1997). HRM includes selection testing, training, performance measurement and administration of benefits (Whitener, 1997). Huselid, et al (1997) have identified empirically a second dimension of HRM activities: strategic HRM, which involves employee participation and empowerment, communication, team based work design, and development of managers of the organization. Arthur (1994) identified two types of human resource systems similar to those found by Huselid et al (1997): Commitment and control. The human resource system that is based on commitment is focusing on the psychological links between organizational and employee goals. It is associated with higher involvement in managerial decision, participation, providing training and rewards. A human resource system that is based on control focuses on directly monitoring and rewarding employee behavior or the specific outcomes of that behavior (Arthur, 1994).

The theoretical literature suggests that HRM practices increase productivity by increasing employees' skills and motivation. Moreover, HRM practices contribute to business objectives through strategic innovation or technical competence. Recent empirical studies on larger companies supported the basic assumptions of HRM theory (Arthur, 1994; Huselid, 1995; Huselid et al., 1997). Does this theory apply to small-scale enterprises as well? HRM also carries costs and they might neutralize the positive effects of HRM in small-scale enterprises. HRM is an investment, and thus, it costs time and/or money. The current performance of employees may even be decreasing because of the time spent on training. Moreover, HRM can only have effects when employees stay in the company for a certain period of time. Otherwise, the company suffers a loss because of the investments in HRM. Thus, the benefits of HRM must exceed costs invested in HRM. Since small-scale enterprises have limited financial resources it is very well possible that large investments in HRM do not pay off. This paper, therefore, reviews human resource management as a tool for organizational success. It is divided into six sections. Section one is the introduction. Section two examines the perspectives of human resource management and the human resource function with section three looking at the importance of personnel and human resource management. Section four x-rays current challenges, issues and trends associated with HRM. Section five shows some results of human resource management contributions in business success while section six contains our conclusion.

#### PERSPECTIVES OF HUMAN RESOURCE MANAGEMENT AND THE HUMAN RESOURCE MANAGEMENT FUNCTION

There are numerous definitions of the term human resource management as there are many experts in the field and it is called by different names for example, in certain public enterprises it may be called personnel administration, employee relations or manpower. Human resource management is concerned

with the proper use of human factors in business. Byers and Rue (2000 :75) are of the opinion that human resource management is that part of management that is designed to provide for and coordinate the employees in the organization. Plants, equipment and all others that a modern firm uses are unproductive except for the effort and direction by human resource.

According to (Cole, 2002: 44) human resource management is that part of management which is concerned with people at work and with their relationship within an enterprises and it seeks to achieve both efficiency and justice.

Human resource management has to do with various operative functions of recruiting, maintaining and utilizing a labour force in such a way that objectives for which the company was established are attained economically and effectively. In sum, human resource management can simply be defined as an effective and efficient utilization of human element at work.

#### Human Resource Management Function

The personnel/human resource department programme of each organization is unique and personnel activities will vary some what from firm to firm yet trends clearly indicate that the scope personal responsibilities in increasing in organizations of all sizes. Personnel/Human resource management functions can be described as follows;

- Job analysis and design
- Recruitment and selection
- Appraisal Training and Development
- Compensation and wealth
- Employee relations

The human resources manager, staff and line Managers

Managing human resources effectively is the task of individuals who have specialized in it and are primarily responsible for human resource management. Human resource managers comprise staff and line managers(those in charge of the employees who are producing the products and delivering the services of the company). These two sets of managers are interdependent in the management of human resources. Increasingly, they work together. Thus, chief executive officers (C.E.O), human resource managers, and all levels of senior management will be involved in managing human resources.

Amidst other senior executives, the human resource leader will be indistinguishable from others, in concern for and understanding of the needs of the business, likewise the staff of the human resource department will appear indistinguishable from their counterparts in the firm, sharing in the human resource function, line managers, human resource staff, and non managerial employees together will forge and implement human resource activities, structure, roles, policy, goals and practices.

The Employees:- Employees are also taking a role of human resource management. For example, employees may be asked to appraise their own performance or that of their colleagues. It is no longer common for employees to write their own job description. Perhaps most significantly, employees are taking a more active role in managing their own careers, assessing their own needs and values, and designing their own jobs. Nevertheless, the human resource department must help guide this process to these ends, but must be staffed with qualified individuals.

#### ROLE OF THE HUMAN RESOURCE DEPARTMENT

## IMPORTANCE OF PERSONNEL AND HUMAN RESOURCE MANAGEMENT

Now, more than ever before, human resource management is recognised as being critical to the survival and success of organisations. In 1991, IBM and the internationally recognised consulting firm of towers Perrin jointly conducted a worldwide study of nearly three thousand senior personnel and human resource management leaders and chief executive officers. Results indicate that about seventy percent of human resource managers see the human resource function as critical to the success of organisations. By the year 2000, more than ninety percent expect the human resource department to be active while the human resource respondents here perhaps a bit more positive about this trend. The Chief executive officers were very close behind. While serving the very success of the business can certainly be regarded as an important goal of personnel and human resource management.

## EXTERNAL INFLUENCE ON HUMAN RESOURCE MANAGEMENT:

## CURRENT CHALLENGES, ISSUES AND TREND

To a large extent, the personnel department's newfound yet well deserved prestige is the result of the enormous responsibilities undertaken by personnel managers. Today, many problems and issues that have traditionally been the responsibility of the personnel department remain so. Examples are the recruitment, selection, orientation and training of high quality personnel, job analysis and job evaluation, labour relations and employee appraisal systems. Current problems and issues have created a new era of professionalism in personnel management. Some of these problems and issues are productive improvements, the quality of working life, safety and health, equal employment opportunity and the increase in computer usage

## CONCLUSION

The issue of human resource management as a tool for achievement of goals and objectives of any organisation cannot be over-emphasized. It is imperative, therefore, that for human resource managers to fully achieve the goals and objectives of any organisation, both the organisation and the employees must come to terms with regard to what would be beneficial to both. Since an organisation does not exist in vacuum, it has to employ personnel to achieve its set objectives and this is what human resources management is all about. Management involves working with and through people to

accomplish organisational goals and objectives. The head of management is concerned with systematic co-ordination of affairs. It is aimed at utilizing available resources to attain the goals and objectives of the organisation. of all resources available to the organisation, human resources enjoy primacy of position because without it, all other resources will remain idle. From this research study, it can be deduced that human resource department must be seen as a pivotal unit in facilitating competitive advantage. It is imperative that the human resource department serves as a communication link between the stakeholders, management and employees in a business organisation. It should be managed by well trained human resource managers.

For the smooth functioning of a city, voting is a fundamental right that every individual  
should exercise, irrespective of age, knowledge, or experience. From healthcare to food,  
From educational policies to jobs, from highways to taxes, elected representatives take  
crucial decisions on these vital issues that affect our lives. Hence, voting becomes  
instrumental in the development of a nation.

### 11. Outcome of the Program

Why should you vote? To make a change. To get access to education, better healthcare and childcare, fair tax policies, basic income, better roads and transport facilities, and other basic amenities. You should vote gives you the power to choose the most suitable candidate who can run the country. If you vote, you can decide who represents your city and country. If you vote, you become an essential part of the decision-making process that will surely affect your everyday life. When you vote, you get a significant way to express your opinion on the issues you are concerned about.

## Report

In our PG Department of Mathematics, we conducted an extension activity on March 1, 2024, on voter awareness at Paganatham. Students gave wonderful awareness to the people. They felt very proud to raise awareness among the people. Our students gave pamphlets to the people to raise awareness. We have conducted more programs by our students, like dance, singing, and enacting drama, to raise voter awareness among the people.

This program provides information about voting and how to be a responsible voter. A lot of People want to vote, but many are not aware of its need or how to cast it. This idea of voting awareness is to help people understand the importance of voting. Our students motivated the citizens to express what they want from their leaders by raising Awareness about voting. This program will lead to better governance, which is what everyone wants. a democracy that is free, fair, and representative.

Our students played a pivotal role in that extension activity. They gave a lot of advice to the people on how to cast their vote safely. They point out that no one should sell their votes. Our students have created intellectual citizens through this wonderful program.

Respected Madam,

Subject: Request for Permission to Organize Workshop on Mushroom Cultivation - Reg.

I am writing to seek your permission to organize a workshop on September 5, 2024 in the topic of mushroom cultivation in the Department of Microbiology at our college. As an integral part of our commitment to practical learning and applied sciences, we believe this workshop will offer valuable insights and hands-on experience to both students and faculty.

We kindly request your approval to proceed with the organization of this workshop. Your support will greatly contribute to enhancing the practical learning opportunities within our department and will be greatly appreciated by all participants.

Thank you for considering our request. We look forward to your positive response.

#### 14. CONSULTANCY

- Cultivation and conditioning of Oyster mushroom (Hands on training)
- Environmental Impact Assessment (faunal and floral basis)
- Creation of Butterfly gardening & Environmental awareness aids
- Vermicomposting and preparation of Vermi wash.

#### 15. ANY OTHER

##### RESEARCH TECHNIQUES AND SKILLS

##### Biodiversity studies and baseline data gathering:

Collection of field data on fauna and water quality parameters. Data analysis Ecological modelling and preparation of report. Sampling techniques for biodiversity assessment on Terrestrial and wetland ecosystem and Alpha and Beta biodiversity assessment through statistical tools like BiodiversityPro, EstimateS and PAST software package. Prioritization of site section for conservation through root weight analysis and familiar with IUCN strategies.

##### Area of expertise:

##### i. Terrestrial faunal diversity and their Ecology

- Quantification technique (ecological censusing methods) of different faunal groups such as ants, butterflies, amphibian, reptiles, birds and mammals, and their identification.
- Spatial and seasonal assemblages of terrestrial fauna and their ecology
- Interaction between habitat (biotic and abiotic) parameters with animal occurrence and their abundance

##### ii. Biodiversity of freshwater ecosystem

- Waterbird taxonomy and their ecology
- Freshwater fish taxonomy
- Quantification of other habitat variables

##### iii. Biodiversity of terrestrial flora

- Floral taxonomy

##### Taxonomic studies:

Training undergone at Asian Lepidoptera Symposium and training program at Coimbatore in identifying the groups of Butterflies and Moths. Also well trained in the identification of Ants, Butterflies, Herpetofauna, Birds and Mammals at Indra Gandhi Centre for Atomic Research, Kalpakkam. In addition training undergone at mapping the biological resource with GIS and FOSS software at Jamal Mohamed College in Trichy.

##### Toxicological studies:

LC 50 and LD 50 evaluation of mosquitoes and identification of repellent activity of plants.

##### Microscope handling:

Confidence in handling dissection/phase contrast microscopes and general maintenance.

##### Biochemical studies:

- Electrophoresis (SDS & Agarose gel electrophoresis)
- Comet assay

##### Digital Photography:

Wildlife and Scientific Photography and digital enhancement through Adobe Photoshop.

##### Computer skills:

MS-office (Power point, MS-excel, MS-word), Ecological Modelling, Mapping the Biological resource with GIS, Google Map and FOSS software, Adobe Photoshop.

##### SPECIAL REMARKS

## Workshop Report

On September 5, 2024, the Department of Microbiology and Chemistry has planned to hold a one-day state-level workshop on mushroom cultivation. We invite Dr. T. Ramesh, Assistant Professor of Zoology, Vivekananda College, Tiruvedakam and Dr. V. Parthasarathy (Retd), Former Vice Principal, Vivekananda College, Tiruvedakam as a resource person.

At 10.30 am, we begin our amazing program in our college's Seminar Hall with a prayer. Dr. T. Ramesh sir begins to discuss the cultivation of mushrooms. He made an informed speech outlining the process of growing mushrooms and how to manufacture sterilized mushroom seeds. He also gives us advice on how to maintain the humidity, moisture content, temperature of the paddy straw and mushroom bed preparation. We learn about the phases of mushroom growth, harvesting, and packing methods. Dr. V. Parthasarathy provides advice on the marketing potential of growing mushrooms and cleaning rodents. Also inspired to start her own business as a woman.

Dr. T. Ramesh sir provided instruction as we set up the necessary supplies for mushroom cultivation, including disinfectant and sterilized paddy straw. He begins his demonstration using the mushroom seeds, paddy straw, and sterilized bags. Participating actively in the spore bagging are our pupils. Lastly, put the bags in the sterilized area at the ideal temperature and take good care of it. At 1:30 pm, our educational workshop came to an end. Some students are eager to do mushroom cultivation.

Respected Madam,

**Sub:** Seeking permission to go to field visit - reg.

I am writing to formally request permission for a field trip to Theni for the student of Computer Science, Microbiology and Hospital Administration. The objectives of this field trip align with our curriculum goals, as it offers an opportunity for the students to learn about the cultural richness of Theni and grapes cultivation. I assure you that the necessary safety measure will be implemented to ensure the well-being of all students during the trip. I have attached the students and staff name list. I kindly request your approval for this field trip.

Thank you for considering our request.

Yours faithfully,

## Theni Field Visit Report

Our institution's Department of Computer Science, Hospital Administration, and Microbiology students visited Theni as part of a field trip. We departed from our institution at 3:30 a.m. on August 10, 2024, to begin our field trip with students studying Computer Science, Hospital Administration, and Microbiology. We arrived at the location about 08.30 a.m.

We finished our breakfast and reached Suruli at 08.30 a.m. We began at the Suruli Falls, where students saw a variety of vegetation, including mosses. The area around the falls is also home to various species of flora and fauna, making it a popular destination for nature enthusiasts. In that particular climate, they enjoyed clean water and air. Around 1:00 p.m., we proceed to our next location, the Kodilingam temple. We found the 70-foot-tall

lingam monument to be rather beautiful. We are able to recognize the strength of devotion in that temple because of its serene and spiritual atmosphere. We ate lunch at Dayalaya Ashramam. Next, we reached the Veerapandiamman temple. Here, We received the Amman blessings and witnessed a stunning scene at the Mullai Periyar River. And at about 5:15p.m., we continue our journey to Vaigai Dam. We relished the dam view location, and the students had a great time in the Vaigai Dam Park. This visit encourages students to think about cultural heritage, tourism, and local economy.

### About Siva:

- 12 Year of Experience in Academia
- Founder of Atlas Academic Advisory Pvt., Ltd.,
- Expertise in IPR especially in Patent filing

### Awards

1. I have been selected as a "Most Promising Educators in Higher Education across India 2019" by uLeKtz wall of Fame.
2. I have been selected for "Maximum Patents filed in the Year 2019" in India Book of Records 2021 Edition.
3. I have been selected for "Young Personality of the Year Award (Below 40 Years) at 2nd International Academic and Research Excellence Awards (IARE) 2020 by GISR Foundation.

### Resource Person

1. Conducted a One Day Online Webinar "IPR Awareness program" as a Resource Person Collaborated with Keyway Consultancy, pvt Ltd on 13-05-2020, on YouTube Live .Total Number of Participants around 2000. [\[View\]](#)
2. Conducted a One Day Online Webinar "Patent Drafting and Claiming Analysis" as a Resource Person Collaborated with SV Group of Institutions, Tirupati, on 26-05-2020, on Google Meet & YouTube Live .Total Number of Participants around 1000. [\[View\]](#)
3. Conducted a One Day Online Webinar "IP Strategy and Patent Protection" as a Resource Person Collaborated with SNS College of Engineering, Coimbatore, Tamilnadu on 30-05-2020, on Google Meet & YouTube Live .Total Number of Participants around 500 [\[View\]](#)
4. Conducted a One Day Online Webinar "Introduction and Basics of IPR " as a Resource Person Collaborated with AVNIET, Hyderabad, on 04-06-2020, on WebEx & YouTube Live Total Number of Participants around 500. [\[View\]](#)
5. Conducted a One Day Online Webinar "Patent Prosecution" as a Resource Person Collaborated with SNS College of Technology on 06-06-2020, on Google Meet & YouTube Live .Total Number of Participants around 500. [\[View\]](#)
6. Conducted a One Day Online Webinar "Patenting Your Innovations" as a Resource Person Collaborated with St. Peter's Engineering College on 16-06-2020, on Google Meet .Total Number of Participants around 1000.

7. Conducted a One Day Online Webinar "How to be a Patent Holder" as a Resource Person Collaborated with Dev Bhoomi Group of Institutions, Dehradun on 18-06-2020, on Zoom. Total Number of Participants around 300.
8. Conducted a One Day Online Webinar "Intellectual Property Rights" as a Resource Person Collaborated with SV Engineering College on 20-06-2020, Sponsored by MHRD Innovation Cell, Govt of India, Delhi, on Google Meet & Total Number of Participants around 300.
9. Conducted a One Day Online Webinar "Introduction to IPR" as a Resource Person Collaborated with KL UNIVERSITY, Vijayawada on 20-08-2020, Sponsored by MHRD Innovation Cell, Govt of India, Delhi, on Google Meet & Total Number of Participants around 1000.
10. Conducted a One Day Online Webinar "IPR Drafting and Claims" as a Resource Person Collaborated with Geethanjali College of Engineering and Technology on 20-10-2020, Total Number of Participants around 200.
11. Workshop on "Design thinking, Critical thinking and Innovation Design" Organized by the Department of Information Technology, Vel Tech Multi Tech Dr. Rangarajan Dr. Sakunthala Engineering College, Chennai Date: 10.02.2022
12. Department of CSE, KGR CET, Hyderabad has served as guest lecture on "Intellectual Property Rights", organized by the School of Computing and Information Technology, REVA University, Bangalore on 14.02.2022.
13. A National Level Webinar on "Intellectual Property Rights", Department of Computer Science and Engineering and Institute Innovation Council (IIC), Sri Viswa Engineering College for Women (A), Bhimavaram, on 26, February 2022 as Resource Person

#### International Patent

1. WIPO PATENT "System and Method for Agricultural grievance Management" have been filed as a first Applicant and Inventor in the PCT/IB2020/050007 on 02-01-2020.
2. An Artificial Intelligence based System for Breast Cancer Detection. Germany Patent No. 202022100092. 2022
3. An Intelligence System for Weather Monitoring and Natural Disasters Prevention Using IoT and ML. Germany Patent No. 202022100460. 2022

#### National Patent

1. PATENT "System and Method for Agricultural grievance Management" have been published as a first applicant in the Indian Patent Office (IPO), Ref No 201941001387, 2019.
2. PATENT "System and Method for Mapping entities securely" have been published as a first applicant in the Indian Patent Office (IPO), Ref No 201941010264, Mar 2019.
3. PATENT "Sensitive Information Management System and method Thereof" have been published as a Inventor in the Indian Patent Office (IPO), Ref No 201941019479, May 2019.
4. PATENT "Access Network Selection System, Device and Method for Reducing Specific Absorption Values for Cell Phones" have been published as an Applicant in the Indian Patent Office (IPO), Ref No 201941026048, and July 2019.
5. PATENT "System and Method for Detecting Presence of an Intruder near a Neon CRIB" Have been published as an Applicant in the Indian Patent Office (IPO), Ref No 201941028405, and July 2019.

### Research Areas of Interest

- Network Security
- Cryptography, Steganography and Watermarking
- Cloud Computing, Big Data

## IPR REPORT

On July 20, 2023, a national webinar on the introduction to IPR was conducted. Ms. Preethi, Assistant Professor, Department of Chemistry, delivered the welcome address. Ms. Priyadharshini, Assistant Professor, Department of Physics, introduced the resource person, Dr. S. Siva Shankar, M.Tech., Ph.D., MISTE, MIAENG., MCSTA., MEAL., MIRED., an expert in IPR. The objective of the webinar was to raise awareness of IPR and encourage faculties and students to use IPR tools for protection and enforcement of their rights. The webinar highlighted the role and rising importance of intellectual property rights in a competitive and globalized economy. It stressed the importance of various attributes of intellectual property, including copyrights, industrial designs, patents, trademarks, internet domain names, semiconductor layout designs, and the aspects of the regulatory framework associated with them. The seminar further laid stress on mechanisms for protection of intellectual property rights, an overview of the Indian Intellectual Property Rights Acts, support through grants for innovations, and commercial aspects of IPRs. Later, queries were asked by the participants to the resource person, and the program came to an end with a shanti mantra.

## Report

In our PG Department of Mathematics, we conducted an extension activity on March 1, 2024, on voter awareness at Paganatham. Students gave wonderful awareness to the people. They felt very proud to raise awareness among the people. Our students gave pamphlets to the people to raise awareness. We have conducted more programs by our students, like dance, singing, and enacting drama, to raise voter awareness among the people.

This program provides information about voting and how to be a responsible voter. A lot of People want to vote, but many are not aware of its need or how to cast it. This idea of voting awareness is to help people understand the importance of voting. Our students motivated the citizens to express what they want from their leaders by raising Awareness about voting. This program will lead to better governance, which is what everyone wants. a democracy that is free, fair, and representative.

Our students played a pivotal role in that extension activity. They gave a lot of advice to the people on how to cast their vote safely. They point out that no one should sell their votes. Our students have created intellectual citizens through this wonderful program.

## SUSTANIABLE FARM VISIT BY EXNORA CLUB

### REPORT (2023-2024)

On behalf of the EXNORA CLUB, I request your permission to organize a visit to a sustainable farm for our club members on [26.12.2023] at Thennilai. This visit aims to provide students with practical exposure to sustainable farming practices and their environmental benefits. We believe it will be an educational and enriching experience.

We have made arrangements for transportation and will ensure proper supervision throughout the visit. We kindly request your approval for this educational excursion.

On behalf of the Exnora Club, we have conducted a sustainable farm visit on (20.12.2023) at Thennilai surrounding. The main motif of this visit is to provide students with practical exposure to sustainable farming.

We reached that place sharply at 11 a.m., and we started our visit. We took more than 100 students for that sustainable visit. It was a nice experience for them to learn about the importance of nature and farming.

Our students had an enriching experience through this visit. Our students visited lots of plants and farms during this visit. One of the students spoke about the importance of nature as well as the importance of farming in that marvellous visit.

We also learned a lot about the herbal plants along with our students. Our Students would be guided by a wonderful guide. Our students had a wonderful experience during this visit. Our students played a pivotal role. in their visit. They were interested in the farm visit. We have completed our sustainable farm visit at 1.00 PM.

## REPORT

The Tamil Nadu Government of Police Department organized an awareness program on "Basic Traffic Rules" at Sri Sarada Niketan College of Science for Women at Kodangipatty. Nearly 70 students participated in this event. Our college students gave basic traffic rules awareness to wearing a helmet for two-wheelers and seat belts for those who drive four-wheelers and to following traffic rules. Our students have been fully energetic and enthusiastic throughout this program. While people are breaking the rules, unfortunately, we are suffering accidents. Hence, awareness of basic traffic awareness is important.

### राष्ट्रीय एकता दिवस शपथ

मैं सत्यनिष्ठा से शपथ लेता हूँ कि मैं राष्ट्र की एकता, अखंडता और सुरक्षा को बनाए रखने के लिए स्वयं को समर्पित करूँगा और अपने देशवासियों के बीच यह संदेश फैलाने का भी भरसक प्रयत्न करूँगा। मैं यह शपथ अपने देश की एकता की भावना से ले रहा हूँ जिसे सरदार वल्लभभाई पटेल की दूरदर्शिता एवं कार्यों द्वारा संभव बनाया जा सका। मैं अपने देश की आंतरिक सुरक्षा सुनिश्चित करने के लिए अपना योगदान करने का भी सत्यनिष्ठा से संकल्प करता हूँ।

### RASHTRIYA EKTA DIWAS PLEDGE

I solemnly pledge that I dedicate myself to preserve the unity, integrity and security of the nation and also strive hard to spread this message among my fellow countrymen. I take this pledge in the spirit of unification of my country which was made possible by the vision and actions of Sardar Vallabhbhai Patel. I also solemnly resolve to make my own contribution to ensure internal security of my country.

## REPORT

The extension activity on computer basics for school students aimed to enhance their understanding and proficiency in the fundamentals of computer concepts.

The program targeted students from grades 6 to 8, providing them with hands-on experience and theoretical knowledge. We conducted interactive lectures to introduce students to computer hardware and software applications.

We organized practical sessions where students had the opportunity to work on a computer using paint. Students gained a better understanding of computer hardware and software applications. Students developed practical skills using software applications such as paint, MS Word, and MS Excel.

Feedback from students and school teachers was overwhelmingly positive, with many expressing appreciation of the practical session of the program.

## REPORT:

On February 2, 2024, an International Conference on AI-Powered IoT for Intelligent Systems and Smart Applications was conducted by the Department of Computer Science. The sessions were taken by Dr. Rajassekaran Selvaraju, Professor, Department of Information Technology, College of Computing and Information Sciences, University of Technology and Applied Sciences, Ibri, Al Dhahira, Sultanate of Oman; Dr. Rajesh Kanna, Assistant Professor, Department of Computer Science, Christ (Deemed to be University), Hosur Road, Bangalore; and Dr. AKILASHRI P. S. S., Head and Associate Professor, Department of Computer Science, National College, Trichy, under the title Overview of AI-Driven Sensor Networks. In those sessions, they explained how to gain insights into the development of predictive models, their applications in various industries, and the challenges associated with ensuring accuracy and reliability. They also thoroughly explained the various benefits of AI-powered IoT. They afforded many examples, and then students were clear and understood various aspects of artificial intelligence in the Internet of Things, which provides a wide range of advantages for businesses and consumers, including proactive intervention and intelligent automation. The sessions were very interactive. Students had asked many questions to resource persons to gain knowledge about AI-driven solutions. The outcome of the feedback from the students and faculty members was considered successful.

**CONFERENCE REPORT (2023-2024)**

The Department of English conducted a Multidisciplinary Conference on Soft Skills, Research Skills and Classroom management skills for Effective Teaching on 28.02.2024. We invited Dr. Monika, Dr. K. Indhirani, Dr. P. Shanthy and Dr. P. Saravanan as our chief guests. Our students welcomed our chief guests and dignitaries of our college with the memento and gifts. The main objective of our conference is to give awareness about the importance of the skills for effective teaching to all of our students. Students from various Institutions arrived at our conference and gained lots of knowledge through our conference.

Our conference began with the prayer song at 10.30AM followed by Lighting ceremony. After that Amba showed her blessing through her energetic words. Amba's words inspired and motivated the students a lot. Presidential address was given by our principal Dr. N. Nagadeepa. She gave a speech about our conference as well as the importance of English in our everyday life.

Our students introduced the guests. Our 1st Session began at the time of 11.20AM, Dr. K. Indhirani has taken over the session where she has presented her paper on the topic of Soft Skills for Effective Teaching. Her presentation was very useful to our students. She handled the session through online mode. That session ended at 11.45 AM.

Our second session began at the time of 11.55 AM, Dr. P. Shanty has take over this session. She has presented her paper titled on Research Skills for Effective teaching. Her presentation was very useful to our students. She handled this session through online mode. This session ended at the time of 12.20 PM.

*MG*

Our third session began at the time of 12.20 PM, Dr. P. Saravanan has presented his paper titled on Soft Skills for Effective Teaching. The session would end at 1.00PM. Then students went for their lunch. Fourth session began at 2.00 PM. This session was handled by Dr. Monika. In this session she presented her paper presentation on the topic of Classroom management Skills for Effective Teaching. This session ended at the time at 2.45 PM. Then we distributed the certificates to the students who participated in our National Conference. Our session ended with a Vote of thanks and Santhi mantra.
