ABOUT OUR COLLEGE

The only service to be done is to give that education by which character is formed, strength of mind is increased, and the intellectual is expanded by which one can stand on one's own leg.— Swami Vivekananda.

Inspired by this ideal, Swami Chidbhavananda the great saint, seer and savant widely known for the power and depth of spirituality founded Sri Ramakrishna Tapovanam, with the objectives namely propagation of spiritual and moral values among the public and promotion of education among women. Among the colleges run by Tapovanam, Sri Sarada Niketan College of Science for women, Karur was started in 1987. Character building and culture inculcation are the basis upon which the super structure of modern education is raised here. The education vision and mission of the college is the harmonious development of the Hand, the Heart and the Head.

The department of Mathematics was established in the year of inception of the college 1987 with UG and by 2004 PG Mathematics was introduced.

ABOUT THE SEMINAR

The main objective of the seminar is to make students/young staff members aware of their knowledge base, to encourage the students to develop working in the broad field of Recent Trends in Applied Mathematics, to motivate the students to do more research work on it and its allied topics.

Technical Sessions-I : Cumulative Damage Process and its Recent Application to Manpower Planning

Technical Sessions-II : Data Envelopment and Analysis
