Easanatham Road, Kodangipatti, Sri Saradapuri,

**KARUR – 639005**

## ABOUT OUR COLLEGE

Educate our people, so that they may be able to solve their own problems. Until that is done, all these ideal reforms will remain ideals only.

– Swami Vivekananda.

Inspired by this ideal of Swami Vivekanandha, Swami Chidbhavananda the great saint, seer and savant widely known for the power and depth of spirituality founded Sri Ramakrishna Tapovanam, with the objectives namely propagation of spiritual and moral values among the public and promotion of education among women. Among the colleges run by Tapovanam, Sri Sarada Niketan College of Science for women, Karur was started in 1987. Character building and culture inculcation are the basis upon which the super structure of modern education is raised here. The vision and mission of the college is the harmonious development of the Hand, the Heart and the Head.

## ABOUT THE CONFERENCE

The quality of higher education is increasingly considered as strategically important for national economic development and competitiveness. Academic quality is a way of describing how well the learning opportunities available to students help them to achieve their award. It is about making sure that appropriate and effective teaching, support, assessment and learning opportunities are provided for them. IQAC in any institution is a significant administrative body that is responsible for all quality matters. It is the prime responsibility of IQAC to initiate, plan and supervise various activities that are necessary to increase the quality of the education imparted in an institution or college. The role of IQAC in maintaining quality standards in teaching, learning and evaluation becomes crucial, and the present research is therefore undertaken on a smaller scale to determine the exact status and functioning of IQAC and its outcome. Obtaining a quality education is the foundation to creating sustainable development. In addition to improving quality of life, access to inclusive education can help equip us with the tools required to develop innovative solutions to the world's greatest problems. Realizing the significance of quality in higher education, the proposed conference is expected to strengthen the IQAC by generating methodical deliberation and discussion on various issues of sustaining the quality.

## SUB THEMES
